## RISH PEACE IN DEADLOCK

DEBT MUST BE  
PAID, WILSON  
TOLD BRITAINNo Chance to Have  
It Canceled, He Said

BY ARTHUR SEARS HENNING.

Washington, D. C., July 18.—[Special.]—More light on the intercancellation of allied war debts, originally proposed by France and concurred in by Great Britain, was shed today in letters President Wilson and Secretary of Treasury Houston addressed to the British government in 1920. Senator Lodge had the letters before the senate.

Replied to the letter of Prime Minister Lloyd George, made public last week, Mr. Wilson rejected the suggestion of intercancellation and asserted that unless arrangements were made for funding the British debt to the United States "in the present state of opinion here, there is likely to develop a dangerous misunderstanding."

Rejected by Houston.

The body was first noticed by William Herdel, a farmer, early Sunday morning as he drove from his farm to Aptekip, a town some six miles away. Herdel thought the man was sleeping and made no investigation. Yesterday he passed by the same place and again noticed the body. He investigated and called the police.

The dead man, besides being of unusual height and weight, had brown hair and blue eyes; he had new underwear, blue serge trousers, a blue and white striped silk shirt, brown silk socks, and low tan shoes.

In the pockets of his trousers were two \$20 bills, seven \$1 bills, and \$2.69 in change. On one finger was the ring. In a pocket was the card. There was no coat or hat.

Shot Four Times.

He had been shot once in the temple, twice in the base of the neck, and once in the back, the last bullet passing completely through the body. A .38 caliber bullet was found in his clothes.

Chief of Police Dennis L. Limberry and J. A. Tropewit, village clerk and undertaker of Libertyville, took the body to that city. Chicago police were notified and Sergeant John Ryan, Alec Jensen, and Eugene McGrath were sent to the northern suburb. They were unable to identify the body.

A TRIBUNE reporter found Paul Gougeleman, president of the Optical Sales corporation, at his home in Wilmette last night. Mr. Gougeleman was unable to identify the man from his description. The same was true of Robert Hlavaty, sales manager of the firm, who returned from California last Saturday night.

Mr. Hlavaty will go to Libertyville this morning in an attempt to identify the body. "Unless the man is one of the numerous optical goods buyers we have here, I can't understand him being in possession of one of my cards," he said.

250 NEGROES MOB  
POLICEMAN ON  
TRAIL OF BOOZE

A mob of 250 Negroes, part of 1,000 who were holding a picnic at Leafy Grove, a short distance from Justice Park, last night mobbed Charles Childress, a white policeman, in an argument over selling "moonshine." Childress was stabbed and was taken to the county hospital by a posse of deputy sheriffs, who arrived at the scene while the disturbance was still taking place. They rescued the officer after a hard battle in which the Negroes were held at bay with drawn revolvers.

Childress, on his arrival at the picnic grounds, is said to have noticed the odor of moonshine on the breaths of many of picnickers. He started to find out where it came from.

Marconi Erases  
'STATIC,' RADIO'S  
GREAT BUGBEAR

Chicago Tribune Foreign News Service, London, July 18.—Guglielmo Marconi, who has just returned to London, announces that for the last few weeks he has been testing a new method of wireless telegraph reception whereby he was enabled to receive messages from the "United States continuously which are particularly prevalent at this time of year and which were more severe this year than usual owing to the prolonged spell of dry, hot weather."

Sig Marconi regards this as an advance of the greatest importance, enabling wireless service to be conducted despite atmospheric disturbances for the entire period of twenty-four hours, at high speed most of the time.

FROM A HEAP of unopened letters the lawyer handed Clair her own envelope that, by its retarded delivery, cost her a fortune.

A fascinating  
BLUE RIBBON  
short story in

Sunday's Tribune

(continued on page 8, column 5.)

Man Shot 4  
Times, Found  
Dead by Road

With the finding of the body of a man six feet two inches in height and weighing more than 260 pounds, in a patch of brush six miles from Libertyville, Ill., police of that city and Chicago have a new and absorbing murder mystery.

A man had been shot four times, and his skull had been crushed. Indications point to his having been killed in Chicago and his body transported via automobile to the spot where it was found.

There were four clews which may bring identification. The first is a diamond shield ring, bearing the initials "S. M." The second is a card of the Optical Sales corporation, 14 West Washington street. The card bears a superscription, "Represented by R. Hlavaty." The third is a cleaner's mark found in the man's trousers. The fourth was a laundry mark: "407."

Found by Farmer.

The body was first noticed by William Herdel, a farmer, early Sunday morning as he drove from his farm to Aptekip, a town some six miles away. Herdel thought the man was sleeping and made no investigation. Yesterday he passed by the same place and again noticed the body. He investigated and called the police.

The dead man, besides being of unusual height and weight, had brown hair and blue eyes; he had new underwear, blue serge trousers, a blue and white striped silk shirt, brown silk socks, and low tan shoes.

In the pockets of his trousers were two \$20 bills, seven \$1 bills, and \$2.69 in change. On one finger was the ring. In a pocket was the card. There was no coat or hat.

Shot Four Times.

He had been shot once in the temple, twice in the base of the neck, and once in the back, the last bullet passing completely through the body. A .38 caliber bullet was found in his clothes.

Chief of Police Dennis L. Limberry and J. A. Tropewit, village clerk and undertaker of Libertyville, took the body to that city. Chicago police were notified and Sergeant John Ryan, Alec Jensen, and Eugene McGrath were sent to the northern suburb. They were unable to identify the body.

A TRIBUNE reporter found Paul Gougeleman, president of the Optical Sales corporation, at his home in Wilmette last night. Mr. Gougeleman was unable to identify the man from his description. The same was true of Robert Hlavaty, sales manager of the firm, who returned from California last Saturday night.

It is desirable that our position be clearly understood in order to avoid any further delay in the constructive settlement of reparations, which arises from the hope that the debts of this government can form a part of such settlement.

The secretary of the treasury is, by United States law, to arrange for the conversion of the demand obligation of the British government into its obligation, having a fixed date of maturity, in accordance with the agreement of the British government to make such exchange on demand, contained in its existing obligations.

No Power to Cancel.

No power has been given by Congress to any one to exchange, remit, or cancel any part of the indebtedness of the allied governments to the United States.

It is highly improbable that either the congress or popular opinion in this country will ever permit a cancellation of any part of the debt of the allied governments as an inducement towards a practical settlement of the reparations claim.

You will recall that suggestions looking to the cancellation or exchange of the indebtedness of Great Britain to the United States were made to me when I was in Paris. Like suggestions were again made by the Chancellor of the Exchequer, in the early part of the present year.

The United States, by its duly authorized representatives, has promptly and clearly stated its unwillingness to accept such suggestions each time they have been made, and has pointed out in detail the considerations which caused its decisions.

Will Not Remit British Debt.

The view of the United States has not changed, and it is not prepared to consent to the remission of any part of the debt of Great Britain to the United States.

Any arrangements the British government may make with regard to the debt owed to it by France, or by the other allied governments, should be made in the light of the position now and heretofore taken by the United States, and the United States, in making any arrangements with other allied governments regarding their indebtedness to the United States (and none are now contemplated beyond the funding of indebtedness and the postponement of payment of interest) will do so with the confident expectation of the payment, in due course, of the debt owed by the United States by Great Britain.

It is felt that the funding of these demand obligations of the British government will do more to strengthen the friendly relations between America and Great Britain than would any other course of dealing with the same.

Delay Inconveniences Now.

This government has endeavored before in a most friendly spirit to make it clear that it cannot consent to meet the reparation question with that of intergovernmental indebtedness. The long delay which has occurred in the funding of the demand obligations is already embarrassing the treasury, which will find itself compelled to begin to collect back and current interest if speedy progress is not made with the funding.

Unless arrangements are com-

mended for funding such loans, and in

that case, the government will not

make any further demands.

A sudden drop in temperature fol-

lows the brief rain last evening. The thermometer, which at 2 o'clock regis-

tered 95, showed the mercury had gone down to 74 at midnight and 74 at 2 this morning. The cold front accompa-

nied the rain storm, in contrast to the torrid breeze of Sunday.

According to the weather forecaster,

the refreshing effects of last night's

rain probably will remain through to-

day, with the temperature hovering

around the 80 mark. After today,

well, the weather man will not say.

## THE CHANGING WORLD

[Copyright: 1921: By The Chicago Tribune.]

(P. S.—This cartoon is almost certain to cause rain.)

[Editor's Note—This cartoon and the rain arrived at the Tribune plant simultaneously.]

SEA OF BURNING  
OIL THREATENS  
40 U. S. VESSELS

New York, July 18.—[Special.]—Fire, starting with an explosion in an over-heated still at 1:54 this afternoon, had done \$1,000,000 damage to the Warner-Quinlan Asphalt plant in Linden, N. J., at midnight. At that hour with five acres of meadow land swimming in burning oil and asphalt, which was tumbling into Staten Island sound, the plant was doomed and the city of New York and the United States shipping were preparing to prevent the flaming sea from spreading to forty of the board's vessels moored at Chelsea, Staten Island, across the sound.

At midnight a tank of gasoline exploded and a tidal wave of gasoline rushed into the bay. It rolled past all barriers and reached Prall's Island, where, for a time, its course was checked. It is feared that if the rest of the gasoline tanks should go up there could be no stemming the fire.

They rescued the officer after a hard battle in which the Negroes were held at bay with drawn revolvers.

Childress, on his arrival at the picnic grounds, is said to have noticed the odor of moonshine on the breaths of many of picnickers. He started to find out where it came from.

Help of the President Is

ASK INTEREST ON  
LOANS AS BONUS

Sought.

Washington, D. C., July 18.—[Special.]—Fearing action against them because of President Harding's attitude on the bonus bill, politicians are seeking a way to satisfy both the ex-service men and the President. They say that if the bonus is not given in some form the Republican party will suffer at the polls in November, 1922. According to them the Democratic leaders are already sending out propaganda attacking the attitude of the majority.

The compromise suggested is that the interest obtained from the \$10,000,000 of foreign loans shall be placed aside and devoted to bonus pay-

ments.

President Harding has been ap-

proached and asked to give his ap-

proval to such a compromise. Repre-

sentative Hamilton Fish Jr. of New

York saw the President today and laid

the matter before him. He came away

with the impression that the President

was disposed to favor the plan.

Representative Fordney, chairman of

the ways and means committee, a strong advocate of bonuses, intends

to have a conference with the Presi-

dent in order to learn whether he

will sanction the preparation of a bill

to make the foreign interest payments

the basis of bonus legislation.

SAFE; DIAL BILL  
IS CALLED OUT

Washington, D. C., July 18.—[Special.]—By a tie vote, 29 to 29, the Senate today refused to consider the Dial bill designed to compel Federal Judge K. M. Landis of Chicago to get off the bench or give up his \$42,500 baseball job.

Sig Marconi regards this as an ad-

vantage of the greatest importance,

enabling wireless service to be con-

ducted despite atmospheric disturbances

for the entire period of twenty-four hours,

at high speed most of the time.

COOL RAIN SENDS  
MERCURY TO 74  
FROM PEAK OF 95

A sudden drop in temperature fol-

lows the brief rain last evening. The

thermometer, which at 2 o'clock regis-

tered 95, showed the mercury had gone

down to 74 at midnight and 74 at 2 this

morning. The cold front accompa-

nied the rain storm, in contrast to the

torrid breeze of Sunday.

According to the weather forecaster,

the refreshing effects of last night's

rain probably will remain through to-

day, with the temperature hovering

around the 80 mark. After today,

well, the weather man will not say.

\* \*

with Mr. de Valera he sent a telephone message for the Ulster leader, who arrived with the Marquis of Londonderry almost at the moment that the premier was taking leave of Mr. de Valera; in fact, the latter was not even aware afterwards that Sir James had been summoned. The official announcement shows that Mr. Lloyd George received the Ulster premier and his colleagues after De Valera had departed.

Mr. Lloyd George conferred with the Ulster premier alone. The members of their respective cabinets accompanied both Irish representatives, but so far as is known did not participate in the conferences with the premier.

Quiet Week End in Erin.

DUBLIN, July 18.—The reports received by Dublin Castle today indicate no disturbance of the peace or tendency in that direction in rural Ireland, in violation of the truce, over the week end. In the Belfast area alone a feeling of uncertainty still exists regarding the maintenance of order, owing to the recent sporadic outbreaks.

#### BOTH SIDES MEET PREMIER

By JOHN STEELE.  
[Chicago Tribune Foreign News Service.]  
[Copyright: 1921: By The Chicago Tribune.]

LONDON, July 18.—Negotiations for peace in Ireland progressed a step further today when Eamonn de Valera, "president of the Irish republic," and Prime Minister Lloyd George had another conference, lasting an hour and three-quarters, at 10 Downing street.

Five minutes before the Irish leader left Sir James Craig arrived, accompanied by Lord Londonderry and other members of the Ulster cabinet. They remained with the prime minister for an hour and a half and left to catch a night train for Belfast.

The two Irish factions did not meet, and as usual all parties were reticent.

Resume Party Thursday.

Downing street issued a communiqué to the effect that Mr. de Valera and Prime Minister Lloyd George had continued their conversations and would resume them again on Thursday.

It was learned today that Mr. de Valera and the prime minister discussed a basis of settlement by which Ireland would be given a dominion form of government, with autonomy for Ulster.

Mr. Lloyd George then summoned the Ulster-delegation by telephone and laid the plan before it. The Ulsterites took an attitude of refusing subordination to the Dublin parliament, but after hearing the prime minister they agreed to go home and consult their followers.

#### Team Ulster 'Naughty Child.'

A significant remark made by one of De Valera's entourage is indicative of what may be in store for Ulster.

"We told the British," said the Irish "republican," "that they have a naughty child and they ought to lay it across their knees and spank it. If the child is not good soon it may be spanked."

Mr. de Valera told THE CHICAGO TRIBUNE's correspondent that he was satisfied with the progress of the conversations so far. It is expected that by next Thursday the Ulsterites will either have returned prepared to discuss business or they will have notified the prime minister of their determination not to compromise.

#### May Cancel World Congress.

New York, July 18.—A proposed world conference of the Irish race to be held in Paris early next year probably will be canceled if the present negotiations between Prime Minister Lloyd George and Eamonn de Valera are successful. Harry Boland, representative of De Valera in the United States, announced today.

The Irish Self-Determination League of Great Britain had been the organization of the conference on the suggestion of the Irish Republicans of South Africa. Irish representatives from every state of the United States, Canada, Australia, South Africa, South America, Spain, and France were to attend.

#### DROWNS FIFTY FEET OFF SHORE AT ONTARIO ST.

John Peter, a Persian, 25 years old, 55 Rush street, was drowned in the lake fifty feet off shore at Ontario late yesterday.

Eranice Paul, 549 Rush street, heard Peter's calls for help and swam out to the spot where he disappeared, but could not summon sufficient strength to dive down after him. Christ Christensen, 539 Rush street, recovered the body.

Ross F. McMichael, 336 Lakeside place, recovered by his daughter, Mrs. 15 years old, and Philip Kehoe, 256 Giddings street, as he was drowning in the lake at the foot of Lakeside place, Sunday, died in the Lake View hospital yesterday morning.

#### CALLED 'JUMPER,' COMISKEY RAGES AT TRIAL OF SOX

#### "Old Roman" Denies Violating His Contract.

Snappy repartee climaxed when Charles A. Comiskey, called as a witness in the baseball trial, jumped to his feet and shouted angrily at Attorney Benedict Short during a heated cross-examination, enlivened a rather dull first inning yesterday at the opening of the "Black Sox" hearing before Judge Hugo Friend.

Announcement by the state that the indictment against "Bill" Burns, an alleged conspirator, would be nolle prossed when the former White Sox pitcher is called to the witness stand to testify for the state this afternoon together with Assistant State's Attorney George E. Gorman's opening statement, in which he outlined the "conspiracy," furnished the other high lights of the day's testimony.

#### Burns to Tell Inside Story.

The testimony of Burns, regarded as the state's star witness, will be the regular evidence introduced into the trial. He is expected to tell the first hand story of the conspiracy to throw the series between the Chicago Americans and the Cincinnati Nationalas.

Preceding Burns several witnesses whose testimony is considered of comparatively minor importance will be placed on the stand. Among them are Harry Grabiner, secretary of the White Sox, and Ban Johnson, president of the American league.

In addition to Comiskey, John E. Bruce, former secretary of the national commission, testified concerning the commission's dealings with the players during the world's series.

Comiskey First Witness,

Most of the day was taken up with so-called technical testimony covering the scores of games played, the seating capacity of Comiskey's grandstand, and the amount of money paid to orchestras during the world's series games at Cincinnati. The state was forced to go into minor details by attorneys for the defense.

Comiskey, as president of the Chicago White Sox, was the first witness called by the state. His tilt with Attorney Short followed charges by the attorney that the Old Roman broke rules and jumped his contract during his days as a player.

Attired in a gray suit and looking much better than when he went before the grand jury last fall, he leaned back in his chair and answered all sorts of personal questions cheerfully until Attorney Short delved into his baseball record.

Comiskey Then Ruled Out.

"This man is getting richer all the time," said Mr. Short, "and my clients are charged with conspiracy to injure his business. I think we ought to be allowed to show he made more money in 1920 than he did in 1919."

"You're simply fourfishing," interrupted Assistant State's Attorney John F. Tyrrell for the state.

This remark was promptly objected to by Judge Friend, who ruled that the attorney had made more money every year since 1919, the date in which he is alleged his business was damaged by the entry of the White Sox into Cincinnati's national series games. Judge Friend sustained the state's objections to this testimony.

Defense Wins Point.

During the last ten months Judge Joseph Sabath in the Superior court branch of Chicago's divorce mills has been presiding over a series of maintenance hearings. But it is not of this of which the jurist is proud. Of the number, he has been able to effect 210 reconciliations, which, he declares, is one of the most difficult tasks that confront a judge.

"I keep track of the couples I have been able to bring together again," said the judge yesterday, "and they are all living happily. This gives me great pleasure, especially when there are children in the family. I always try to prevent the breaking up of a home."

"The divorce courts are difficult at the best, and it is always in my mind to find some solution to the domestic problems before me. In many cases this is impossible and there is nothing to do but grant a decree."

Judge Sabath left yesterday on his annual vacation.

Defense Wins Point.

Attorney Bruce was the next witness called by the state. He told of a bulletin issued by the national commission in 1919 and sent to all the eligible players for the world's series. These, he said, were given to Managers Moran of the Cincinnati team and Gleason of the White Sox. He also told of the expenditure of the \$722,414 taken in at the gate during the series.

Under cross examination Attorney Michael Ahern for the defense brought out the fact that the player's regular league season had expired prior to the world's series games, and that the teams were operating under the orders of the National commission.

This was brought to the jury's attention to prove that it would have

#### THE OLD ROMAN UNDER FIRE

#### COMMONS HEARS WHY THUNDERER WAS BOYCOTTED

#### Attack on Curzon Hurt Empire, Premier Says.

[Chicago Tribune—New York Times Cable.]

[Copyright: 1921.]

LONDON, July 18.—Lloyd George replied in the house of commons today to a number of questions set to the reported withdrawal from certain daily and weekly newspapers—"that is, the Northcliffe press—of facilities for obtaining official news from the foreign

ministers.

The prime minister began by explaining how the greater part of official news was issued through agencies which carried it to papers as a matter of routine. He continued:

"For some years past it has been customary for facilities to be given to representatives of newspapers to visit government offices and to make inquiry on their own behalf on events of the day. These courtesies are normally extended to all newspapers, without regard to their attitude to the government, and the Times took full advantage of these privileges.

Tells of Times' Attack.

"But courtesy should beget courtesy. I must hardly explain that official information is available to the Times through the ordinary agencies. The fullest courtesy has at all times been extended to its representatives."

"The fact that it has pursued a course of virulent opposition, and notably to the head of the government, has not in the least influenced government departments in the facilities they have extended to its representatives, and personally I have never made a single effort to induce the withdrawal of a single facility from the Times or its allied newspapers, the Daily Mail, the Evening News, and the Weekly Dispatch."

"On Wednesday, the 13th instant, however, the Times published a personal attack on the editor of the Woodrow Wilson bill, designed to compel Judge Landis to resign, and the Times' attitude to the bill, many senators fearing the threatened Kenyon amendment to deprive senators and representatives also of business connections.

Chairman Lasker of the shipping board pronounced the financial condition of the fleet corporation shocking and the books a tangled mess and asserted that the country had been grossly deceived. He said he had found a deficit of \$300,000,000 and would have to ask congress for \$300,000,000 in addition to the \$100,000,000 already appropriated.

The Sweet bill to create a veterans'

bureau encountered more delay. Secretary of War Weeks asking the senate finance committee to withhold action pending consideration of some amendments he would submit.

The senate shelved the Dial bill, de-

signed to compel Judge Landis to

resign, and the independent progres-

sive amendment offered by Representative Treadaway, Massachusetts, was voted to.

The amendment adding long staple

cotton to the dutiable list was adopted by a vote of 105 to 74, on the motion of Representative Bowers, West Virginia. The duty provided is 15 per cent ad valorem on long staple cotton.

The amendment prohibiting the prescription of beer and took up the Norris bill creating a \$100,000,000 government corpora-

tion to finance export of farm products.

**All Stocks Sold Out.**

I was informed that never before in the firm's history had the stocks been so completely sold out. Yet this great cotton merchant I found distinctly pessimistic on world conditions, owing to credits and markets.

I asked whether Germany does not need considerable quantities of American cotton, and he was extremely frank.

"Germany and the world need manufactured cotton goods in quantities larger than we have ever dreamed," he said.

"In coming months, perhaps years, German women will be unable to afford silk and woolen goods, and men will not be able to purchase clothing with the usual proportion of wool. Cotton, then, must be used to an even greater extent than formerly."

"I am informed that you in America have large accumulations of unsold raw cotton. Our German mills are running probably at not one-half their capacity. We need credits to support our operations and markets prepared to pay for our product."

"Given them, we could run our mills full time day and night and could soon use up all of your available supplies of raw cotton. There can be no doubt the Russians would be such a market as we need if we could find the buying and selling transactions and for exchange of products could be arranged."

Wherever I meet a deep student of the economic and industrial problems of the world I hear the same words.

## PROPAGANDA HAS SPLIT U. S. FROM RUSSIA—FRANCE

**Senator Avers Britain Is Gobbling Up Trade.**

BY JOSEPH IRWIN FRANCE,  
United States Senator from Maryland.  
BERLIN, June 21.—[By Mail.]—The morning after our arrival in Berlin we were in touch with the Russian delegation and were informed that the home government would be communicated with concerning our desire to enter Russia. We shall utilize the time which must intervene before the answer comes from Moscow, to study the European and Russian questions in this great central city of Berlin.

In London we learned that the British were deeply interested in securing Russian trade. Here we find not only confirmation of the evidence which led us to believe that England was vitally interested in Russia, but most conclusive evidence that the British merchants and manufacturers are making every effort to expand their trade with Germany and that they look forward to cooperating with the Germans in the opening up and development of Russia.

### He Finds Propaganda.

From this angle the extreme stupidity of our foreign policy, which was so evident to me before I sailed for Europe, becomes increasingly apparent. It is quite evident, as we survey the situation here, that America has been made the victim of a most clever propaganda designed to separate us in a technical sense of war with Germany, and that this has greatly rebounded to the advantage of other countries.

Being unable to understand it myself, I find it impossible to explain why my party, which had promised an immediate peace with Germany after it should come to power, has failed to fulfill its pledge, to the great injury of the agricultural and industrial interests of our country.

### Germany Needs Wheat.

Let me illustrate. Germany desperately needs wheat in large quantities. While our farmers have been suffering keen embarrassment and distress because they could not find a market for their grains, the Germans have been purchasing the wheat for their immediate needs from the farmers of Australia, receiving a credit of three, six, and nine months. These credits were given.

When our farmers, manufacturers, and workers realize how their interests are being sacrificed, they will demand prompt governmental action to secure peace and to make possible credits.

Having in mind the serious plight of the cotton planters, with their crops unsold and the new crop coming in, I urged the talk with the greatest care, good-will, merchant of Germany, who is also one of the leading authorities of the world on every subject that pertains to the manufacture and merchandising of cotton in all its forms.

### Able to Get Interview.

I was fortunate in being able to have a long conference with this man. He is about 60, smooth-shaven, with massive head and of quite Napoleonic appearance. I called on him in his office in a towering, handsome pile of brick and stone, almost fortress-like, which contained show rooms and warehouses, as well as the offices of this powerful figure in the commercial life of Europe and the world.

Now, as I passed down long corridors toward the private office, I could see on the other side of the glass partitions mainly tiers and tiers of empty shelves.

### All Stocks Sold Out.

I was informed that never before in the firm's history had the stocks been so completely sold out. Yet this great cotton merchant I found distinctly pessimistic on world conditions, owing to credits and markets.

I asked whether Germany does not need considerable quantities of American cotton, and he was extremely frank.

"Germany and the world need manufactured cotton goods in quantities larger than we have ever dreamed," he said.

"In coming months, perhaps years, German women will be unable to afford silk and woolen goods, and men will not be able to purchase clothing with the usual proportion of wool. Cotton, then, must be used to an even greater extent than formerly."

"I am informed that you in America have large accumulations of unsold raw cotton. Our German mills are running probably at not one-half their capacity. We need credits to support our operations and markets prepared to pay for our product."

"Given them, we could run our mills full time day and night and could soon use up all of your available supplies of raw cotton. There can be no doubt the Russians would be such a market as we need if we could find the buying and selling transactions and for exchange of products could be arranged."

Wherever I meet a deep student of the economic and industrial problems of the world I hear the same words.

## THEIR FORTUNE'S IN THEIR FEET

Tramp, tramp, tramp, the girls are marching this morning, as they have been for sixteen days—ever since they left their old home town of Newark, N. J., to inspect the Indians, the prairie dogs, the bison, and the other wonders of the great and untamed west. Their adventure will end when they glimpse the Golden Gate and associated attractions of the Pacific. The quartet, which has been on the road for sixteen days, arrived here yesterday. They will make the entire journey on foot, camping out along the way.

From left to right the picture shows Mabel Holsted, May Taffin, Josephine Taffin, and Bud Bender.

## ACTS OF MASKED MOBS IN TEXAS STIR LAWMAKERS

Abuse of Woman and War Hero Angers State.

**BULLETIN.**  
Dickinson, Tex., July 18.—G. C. Benson, a prominent citizen, was seized by three masked men, escorted half a mile from town, and severely whipped.

Beaumont, Tex., July 18.—[Special.]—The Texas legislature, which convened today in extra session, is expected to make an investigation of the epidemic of assaults upon citizens in various parts of the state by parties of masked men, in which the victims usually are tarred and feathered and later released upon the streets of the town or city of their residence. These incidents had their initiation Saturday and Sunday nights in the tarring and feathering near here of R. E. Scott, veteran of the marine service in the world war, and of Mrs. Beffab Johnson at Tenaha, Shelby county.

The assault upon Mrs. Johnson is the first one in which a woman has been the victim of the depredations, alleged to have been in most instances committed by members of the revived Ku Klux Klan, the so-called "invisible empire."

**MRS. JOHNSON RELEASED.**  
Shreveport, La., July 18.—[By the Associated Press.]—On orders from County Attorney Lewis Johnson, Mrs. Beffab Johnson, whom masked men tarred and feathered at Tenaha, Tex., Saturday night, today was released from the Shelby county jail at Center, Tex. It was explained that there was no charge against her except the one for bigamy, for which bond was given some time ago.

County Attorney Johnson announced vigorous efforts would be made to arrest and prosecute the men. Reports of great indignation sweeping the county are being received at Center from various sections.

Florida Grand Jury Acts.

Miami, Fla., July 18.—The Dade county grand jury today began an investigation of the kidnapping last night of the Rev. Philip S. Irwin, white pastor of St. Agnes' Episcopal church, who was whipped, tarred and feathered, then dumped out of an automobile into one of the main streets of Miami. Irwin's alleged doctrines of racial equality were said to have provoked the attack.

Judge Burleigh, in charging the grand jury, said:

"The court suggests that while this country allows freedom of speech, one exercising this constitutional privilege should advise himself or bear in mind the time-honored traditions of a people."

Although Irwin was given forty-eight hours to leave the country by the eight masked men who shed him, he declared he would remain in Miami and continue in his pursuit.

**Arrest Three in Missouri.**

Warrensburg, Mo., July 18.—Three men were arrested here today in connection with the flogging of Richard Johnson, 65 years old, who was prevented from working in the fields at his son's farm. Charges of conspiracy and felonious assault were filed against the men.

### Another 19th Ward Murder

## ARREST BARES \$150,000 FRAUD AGAINST PACKER

### Hormel Co. Ex-Official Put in Jail.

Austin, Minn., July 18.—Published reports that R. J. Thomson, former controller of George A. Hormel & Company, packers, had embezzled more than \$1,000,000 of the company's funds, were declared "erroneous" to night by officers of the concern. They admitted, however, the amount was "in excess of \$150,000."

It was learned tonight that the exact amount of the controller's defalcations will be made public in Chicago Wednesday after a conference of bankers holding most of the company's outstanding obligations.

#### Thomson Held in Jail.

Thomson still was in the county jail late today through inability to supply \$25,000 bail money. His property, valued roughly at \$1,000,000, has been assigned to Jay C. Hormel, vice president of the packing company, to be used in settlement of his misappropriations from the concern.

Thomson, arrested today on a specific charge of misappropriating a company check for \$10,000, waived preliminary hearing and was bound over to the District court.

#### With Firm Ten Years.

Thomson has been with the packing company ten years, and its monthly business is said to reach \$3,000,000.

THREE POLICEMEN—James P. Muller, Alfred F. Winnem, and Michael T. Langan—ordered before trial board charged with drunkenness.

CLARENCE ERLER, said to be holding the auto in the hand, arrested with "tools" while in stolen car.

FOUR BANDITS ROB Peter Spingola, 750 West Taylor street, as he sits in auto with girl, and later stick up H. C. Peterson, 1952 Humboldt street, in similar situation. Net: \$223.50 and three watches.

MARTIN S. GREENGOLD, 22, 3717 West 16th street, arrested by Burns detective for alleged fleecing of business men.

### CITY NEWS BRIEFS

THREE YEAR OLD Millie Kmatko, 2656 Cortez street, dies after being struck by auto near home.

LOUIS KOUKES of 712 Blue Island avenue, alleged driver of truck that killed Joseph Patigapo, 7, Sunday afternoon, arrested for manslaughter.

LEROY NICHOLSON, 8, of Melrose Park, dies of injuries received last week in fall from buggy.

THREE POLICEMEN—James P. Muller, Alfred F. Winnem, and Michael T. Langan—ordered before trial board charged with drunkenness.

CLARENCE ERLER, said to be holding the auto in the hand, arrested with "tools" while in stolen car.

FOUR BANDITS ROB Peter Spingola, 750 West Taylor street, as he sits in auto with girl, and later stick up H. C. Peterson, 1952 Humboldt street, in similar situation. Net: \$223.50 and three watches.

MARTIN S. GREENGOLD, 22, 3717 West 16th street, arrested by Burns detective for alleged fleecing of business men.

### 'EXAM' QUESTIONS LEAKS LAID TO TWO BROTHERS

Pittsburgh, Pa., July 18.—Prisoners in the western penitentiary today broke all discipline, fired four buildings, and for a time kept the institution in an uproar, while prison guards, deputy sheriffs, and policemen, reinforced by armed citizens, battled to put down the disturbance. Six convicts were shot and two others killed in the battle. Prison officials said that three or four of the wounded would likely die.

Cassius Erler, department inspector, has been discharged from the state service for peddling the questions, Mr. Miller said.

The department director today made public statements by Erler and his brother, E. F. Erler, who on July 1, was removed as cashier in the department and transferred to the Charleston state teachers' college as registrar.

All June dental, medical and pharmaceutical examinations in Chicago were canceled by Director Miller when discovery of the leak was made last month.

They had taken \$220 and Mr. Upham's watch.

### QUIZ VISCOUNT BRYCE UNDER NEW ALIEN LAW

New York, July 18.—[Special.]—Viscount James Bryce, former British ambassador to the United States, arrived today from England. He seemed to carry his 83 years lightly as he stepped down the gangway to the pier. He had to go through the cross-examination all day and must pass under the law ladder, but the inspectors were as quick as possible.

When asked about his plans Viscount Bryce replied:

"Before leaving England I decided not to give out any interviews on public affairs because I considered that it would be bad taste on my part. I have nothing to do with the disarmament conference and have been out of touch with the British foreign office. I am here solely in a private and unofficial capacity."

### CONVICTS RIOT AND BURN PEN; GUARDS SHOOT 6

Pittsburgh, Pa., July 18.—Prisoners

in the western penitentiary today broke all discipline, fired four buildings, and for a time kept the institution in an uproar, while prison guards, deputy sheriffs, and policemen, reinforced by armed citizens, battled to put down the disturbance. Six convicts were shot and two others killed in the battle. Prison officials said that three or four of the wounded would likely die.

Burglars Raid Glen View Home of F. W. Upham

Residents of country homes in the vicinity of Glen View are taking extra precautions against burglars since the summer home of Fred W. Upham, president of the Consumers' Company and treasurer of the Republican national committee, was entered early Sunday morning.

Mrs. Upham heard a noise in a second floor dressing room and called her husband. He hurried upstairs but the intruders fled.

They had taken \$220 and Mr. Upham's watch.

## HUMPHREY AUTOMATIC GAS WATER HEATER

### \$15 Will Start Running Hot Water in Your Home

As a special inducement we will install a famous Humphrey Automatic Gas Water Heater for a payment of only \$15. Balance may be paid monthly. This is a good time to discard your old, bothersome, unsatisfactory, limited, hot-water supply and have instead an inexhaustible, unlimited amount of fresh, piping-hot water entirely automatically—by merely turning any hot water faucet—any time, day or night.

When faucet is closed, the Humphrey shuts off the gas for you—stops expense. The entire operation is automatic—you don't even need to strike a match or wait.

This beautiful, substantial, green and gold finished heater can easily and quickly be installed in your home and will furnish hot water in all rooms desired.

Aside from the daily comfort of such a system for house-work, bathing, shaving, sudden sick calls, etc., the economy of the Humphrey deserves your consideration. A hot invigorating bath for 3 cents. All the hot water you need for a few cents a day. In no other way can you heat water so cheaply.

Call at our display rooms and look over a Humphrey today. Let us show you the style and size best suited for your needs. Write or telephone and our representative will call. Better do it today!

## NEW NEGRO WARD CREATED UNDER 50 DISTRICT PLAN

**Proposed Boundaries to  
Be Given Council Friday.**

Restricting of Chicago into fifty instead of thirty-five political divisions under the provisions of the fifty ward plan approved by the electorate last fall is practically complete. The plan will go to the council Friday.

If approved by the council by sufficient votes to prevent the submission of a rival plan to the voters by fourteen aldermen, the new lines will become effective in the spring of 1923, when the terms of the present sixty-seven aldermen expire, and eliminate seventeen of the present aldermen from the council.

"Little Fellow" May Retire.

Some of the outstanding features of the plan are:

Elimination of either Ald. John Coughlin or Michael Kehoe from the council. It is understood Ald. Kehoe, known affectionately as "the little fellow" among his friends and as "Hinky-Dink" among his critics, will retire after twenty-six years of service.

Creation of two colored wards instead of one as at present. The Second ward is split up to make the Second and Third wards with Ald. L. B. Anderson and R. R. Jackson, each in a ward of his own.

**Eliminate Italian Colony.**

Elimination of the west side Italian colony, mostly in the Nineteenth ward, as a political entity. The home ward of the murdered political leader, Anthony D'Andrea, divided among the new Twentieth, Twenty-fifth, Twenty-sixth, and Twenty-seventh wards.

Creation of six wards which contain no residences of sitting aldermen. These are the new Eighth, Tent, Eighteenth, Twenty-fourth, and Thirty-sixth wards. Several sitting aldermen, who will be thrown into wards with other aldermen, are planning to move into these wards.

**Avoid Third Negro Ward.**

By dint of many jogs in the boundaries of the new Twenty-eighth ward the subcommittee which framed the lines avoided creating a third colored ward in the Lake street district on the west side.

The changes in ward numbers will give many citizens a start. The Nineteenth ward, now linked with the west side bomb outrages, becomes the exclusive Beverly Hill and Morgan Park residential districts. The present Twenty-first ward, famous for its "Gold Coast," is split three ways, becoming the Forty-second, Forty-third, and Forty-fourth.

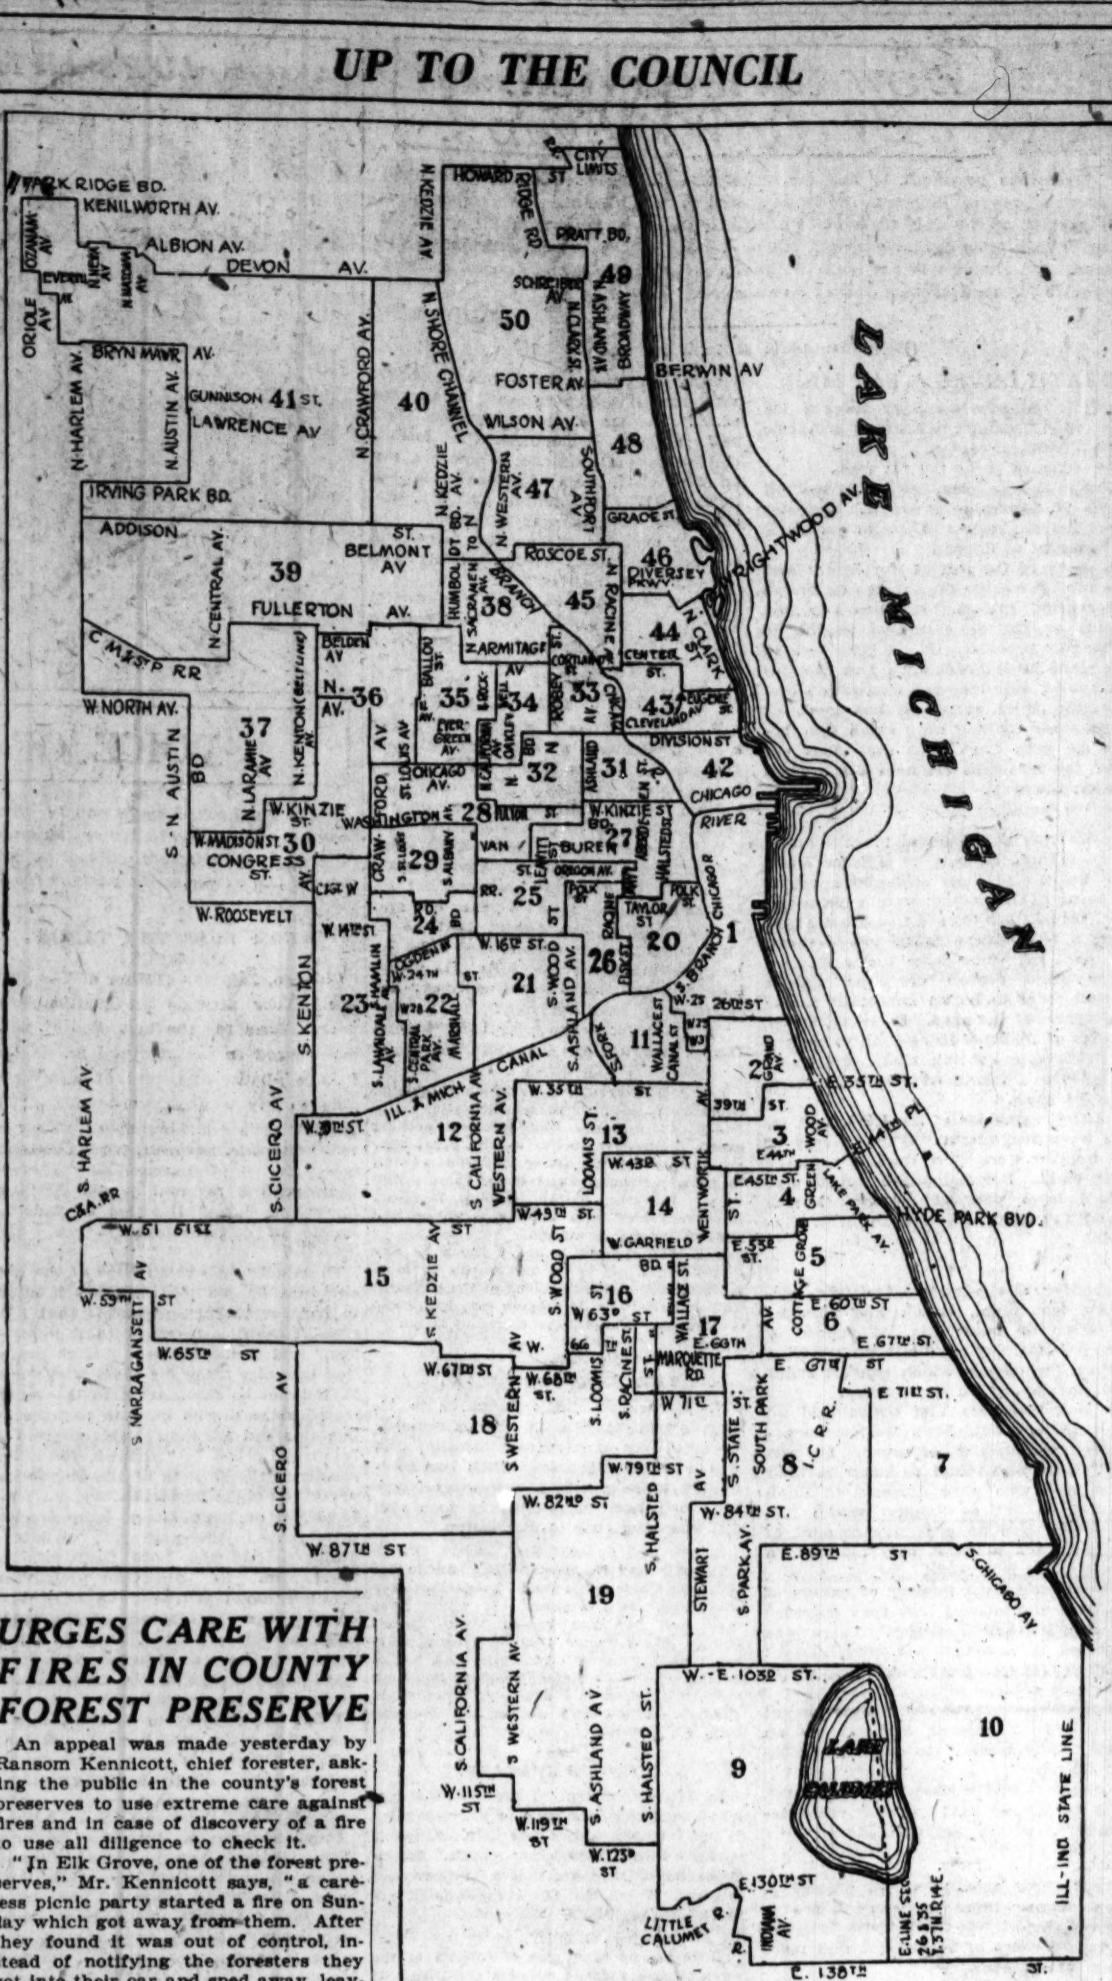

The Twenty-fifth ward, with its 122,731 population, makes two full wards—the Forty-eighth and Forty-ninth—and part of a third, the Forty-eighth.

**Loop Stays in First.**

The loop district remains in the First ward, but its southern boundary is made Twenty-sixth street. Instead of Twenty-ninth street, as was proposed originally, so that the number of colored voters in the ward will be negligible politically.

Announcement of the population of the new wards will be made in a few days. At present the smallest ward is the Twentieth, with only 35,294 population, and the largest is the Twenty-seventh, with 150,244, though each has equal representation in the council—two aldermen.

Prices realized on Swift & Company sales of carcasses fed in Chicago for week ending Saturday, July 14, on shanks of cold cuts ranged from 7.75 cents to 17 cents per pound, and averaged 12.80 cents per pound.—Adv.

### URGES CARE WITH FIRES IN COUNTY FOREST PRESERVE

An appeal was made yesterday by Ransom Kennicott, chief forester, asking the public in the county's forest preserves to use extreme care against fires and in case of discovery of a fire to use all diligence to check it.

"In Elk Grove, one of the forest preserves," Mr. Kennicott says, "a careless picnic party started a fire on Sunday which got away from them. Although they found it in time to control it, instead of notifying the foresters they got into their car and sped away, leaving it burning. Some one telephoned to Mount Prospect, six miles away, and the volunteer fire department responded promptly so that the fire was stopped after having burned only two acres of the thousand acres that were threatened."

"Such public spirited work as this by the Prospect fire department deserves great credit. The people of the county are indebted to Capt. William Busse Jr. and his volunteers for their prompt assistance in saving this beautiful preserve from the flames. The boys answered the call in their Sunday clothes, and after their return to Mount Prospect, nearly midnight, they were a sad, bedraggled lot of fire fighters."

### PATTERSON QUILTS 'NATIONAL CASH' PRESIDENCY JOB

Dayton, O., July 18.—John H. Patterson has resigned as president and general manager of the National Cash Register company. He is succeeded as president by his son, Frederick, and as general manager by J. H. Barringer.

The retiring president will continue to direct the affairs and policies of the company as a member of the board of directors.

Mr. Patterson has been president for the last thirty-seven years and recently celebrated his seventy-sixth birthday.

COME OUT OF THE BEATEN PATH

**MEN--This is a REAL OPPORTUNITY**

Any man's suit, any man's topcoat in this choice of the house sale at \$19.

We limit the quantity to a customer, and sell none to dealers.

**19**  
**YOUR CHOICE  
ANY SUIT**

In the House at Nineteen Dollars

Your Choice  
Spring and  
fall topcoats  
at \$19

—including many silk lined and silk trimmed garments. Specially priced during this choice of the house sale at nineteen dollars. Also gabardine and rain coats of the better quality.

Our sales force had difficulty in handling the large volume of business last Saturday, the opening day of this sale. Many foresighted men purchased two or three suits for themselves, and many others bought suits for their friends. There is little cause for surprise at the enthusiasm this sale aroused. Think what it means to be given a free hand to choose any suit in our stock at nineteen dollars, regardless of its former price.

EVERY suit offered is high-grade. You will find the labels of some of the country's foremost clothing manufacturers inside these garments. The materials are blue serges, worsteds, fancy weaves, flannels, and summer fabrics of the better qualities. All the popular models for the young man who wants a snap, or the elderly man of conservative taste. Dress suits and tuxedo suits included at \$19.

In addition to all regular sizes we have plenty of suits for extra stout and extra tall men, up to size 50.

### GRAND JURY TO WIDEN ITS SCOPE IN SMALL INQUIRY

#### MILLER EXPECTED TO BARE NEW FACTS TOMORROW.

New evidence concerning transactions entered into by the state treasurer's office during the term of Gov. Len Small and Lieut. Gov. Fred E. Sterling will be presented to the Sangamon county grand jury by State Treasurer Edward E. Miller when that body reconvenes tomorrow morning. This evidence, it is said, may bring the amount of state funds under investigation far beyond the \$10,000,000 figure already brought to the attention of the jurors.

As far as can be learned, the grand jury so far has delved only into the matter of the \$10,000,000 loan made during the term of Small as treasurer to the now defunct Grant Park bank.

**SCOPE OF INQUIRY MAY BROADEN.**

With new evidence Mr. Miller has to present has to do with other transactions under Small and Sterling or whether it deals with the same loan could not be learned, but it was reported that it may make the amount of money under investigation grow materially.

It was known that Mr. Miller had important evidence in hand which he did not disclose when he first appeared as witness. The exact scope of the legal point or technicality involved, it is said, which has since been cleared up. Attorney General Edward J. Brundage left for Springfield last night and will hold a conference there with Mr. Miller.

**PROGRAM FOR TODAY'S INQUIRY.**

Harry Luehrs, chief clerk in the state treasurer's office, is expected to complete his testimony at the morning session, and he will be followed by the state treasurer. Four other witnesses, who were to be served with subpoenas yesterday, will then testify.

**LAST OF 21 CHILDREN IS  
DEAD AT THE AGE OF 83**

Madison Rock, Wis., July 18.—Charles Van Schoonhoven, 83, last of a family of twenty-one children, is dead at his home at Olivet, near here.

### MOVE TO THWART CHANGE IN LINES OF CITY MARKET

#### MAXWELL ST. PLAN LAID TO CITY HALL AIDS.

Steps to prevent the Thompson-Lundin cohorts from altering the bounds of the Maxwell street market against the interests of property owners along Maxwell street, west of Halsted—so to be taken at the next meeting of the council committee on markets by attorneys representing fifty property owners in the affected area.

The ordinance creating the market was passed and signed by the mayor west to Sangamon, and a few stalls are in operation between that thoroughfare and Halsted street.

But most of the business is now done in Maxwell street east from Halsted to Union.

**ATTORNEY TELLS OF PLAN.**

Philip R. Davis, attorney at 10 South La Salle street, and J. Kent Greene, secretary of the industrial arbitration committee of the Association of Commerce, have been retained by the property owners to oppose the move.

According to Mr. Davis, the plan is fostered by Morris Eller, sanitary district trustee and Thompson leader, and Louis J. Nowak, attorney for the Maxwell street market. The scheme is said to be officially to extend the market along Union avenue north to 13th street and south to Liberty street.

That part of the market which is operated in Maxwell street between Halsted and Sangamon streets is to be discontinued.

**CHARGES POLITICS.**

"The plan to extend the market along Union avenue is to benefit city hall adherents and nothing else," Mr. Davis said. "By cutting off the market from that part of Maxwell street west of Halsted a serious loss will be incurred by property owners there. I say that if the present boundaries are not filled, if they are not why establish new markets in the neighborhood?"

Mr. Davis said that in case the council committee fails to accomplish the request of his clients, he will seek to halt the plan through injunction proceedings.

**HONOLULU OIL COMPANY**  
**RECEIVER KILLS SELF**

San Francisco, Cal., July 18.—Grant Helm, receiver of the Honolulu Oil company, shot and killed himself at his office in the Balboa building, a downtown business structure, late today, according to a statement by the company.

## NEW ENGLAND AND THE SEAWAY.

In an adjoining column under the caption "Editorial of the Day" appears an excerpt from the Boston Transcript treating the proposed St. Lawrence Seaway in a decidedly unfriendly manner. The Transcript hopes that seventy-three persons from New England viewing the canal route may have a pleasant trip, but will not be influenced to support the project.

Probably the newspaper's hopes will materialize. That is one way in which New England prospers by knowing what it wants and getting it. In this matter Boston, most of New England, New York and most of the Atlantic coast manufacturing and shipping interests having made up their minds, regardless of the opinion of competent engineers and the benefit of manufacturing and agricultural interests in sixteen middle western states, will oppose the improvement. They will bring pressure to bear upon their representatives in congress to defeat the project, regardless of its proven economic and commercial value to the nation, because they believe it will compete with their local interests.

This has always been the policy of New England and New York. As a result those sections have got what they want out of congress. It is time the middle west through the so-called agrarian bloc in congress should act to defend its rights and obtain proper development of its potential resources. The proposed seaway will be of great value to the middle west as the Panama canal is to the coast regions. There is no more reason that New England should selfishly prevent the development than that the middle west should have blocked the construction of the Panama canal.

Opposition is based upon regional selfishness and jealousy operative through politics. The economic and commercial advantages of the improvement have been revealed so clearly on such occasions that no reiteration of such arguments can be expected to break down such opposition. It must be opposed through politics, the medium through which it works. That is a task for the agrarian bloc.

## THE NAVAL HOLIDAY.

The caution and deliberation with which the Japanese government is examining the possibilities of the Pacific conference is, or should be, a reminder to our early optimism that difficulties lie in the path of our hopes. Many of these difficulties are obvious enough from a little consideration, and wise men will realize that they may prove to be insurmountable. We may hope that a far eastern accord may be worked out and substantial measures of disarmament agreed upon with corollaries of great importance. But, on the other hand, little or nothing may be accomplished in this field. We hope, therefore, that the comparatively simple and practicable project for a limitation of naval building by Great Britain, Japan and the United States will not be shelved. Here is a proposition which, if energetically pushed, can be accomplished with results of great moment. The naval holiday would mean a great saving in money at a time when government expenditure is urgently, vitally called for. It would mean the necessary imposition of a peace policy in a field which, more than any other, threatens war. It would mean the definite avoidance of a rivalry in armament which would pile up a killing burden on our respective countries and at the same time carry us all three most certainly toward eventual conflict.

The three great naval powers can provide for a mutually profitable status quo, provided this problem is not unnecessarily involved in the far-reaching complications and almost insoluble difficulties of land disarmament. Let us see to it that, whatever is attempted of a more ambitious scope, this possible and practicable good is achieved.

## THE PRESIDENT'S WEEK-ENDS.

We are glad to read of the President's week-end cruises and hope they represent a policy which will be kept up. There is no statesman or official ruler in the world bears a heavier burden of exacting duties than the American executive, and it is of first importance that the incumbent should keep a jealous guard over his health and vitality. This is not a selfish consideration. It is a matter of primary duty to the nation. Nothing but the most imperative emergency should be permitted to take precedence over this duty and then only so long as is imperatively necessary.

It is fortunate that Mr. Harding's physique is sound and that in all probability his constitution develops promptly from heavy strains. But Washington, especially in summer time, is not an invigorating place and the President should see to it that he gets frequent rest and change. We trust his advisors, of which Mrs. Harding in this respect at least is foremost, will guard the executive from any temptation to slight his duty to his health and will insist that his week-end outings be the paramount law of his official conduct.

## Editorial of the Day

### THE ST. LAWRENCE WATER WAY.

(From the Boston Transcript.)

After eighteen months of study, two eminent engineers (Col. W. P. Wootton for the United States and Mr. W. A. Bowden for the Dominion of Canada) have made a favorable report on the project for an international deep water way from the upper great lakes to the ocean, by way of the Welland canal and the St. Lawrence river. They estimate that for an expenditure of \$25,782,200 a twenty-five ft. deep channel can be established all the way from Lake Erie to the sea, and for \$17,986,180 additional a thirty-foot channel. All this with nine locks, thirty-three miles of ship canal, forty and a half miles of deepened lake channel and 100 miles of deepened river channel. To maintain this way, an annual expense of \$2,562,000 would be necessary.

"WHO but a fool," said Dr. Johnson, "reads a book through?" His complex must have been offish or Boswell misquoted him. Besides Anatole France had not arrived. We skip through the average book, always reading the last chapter before deciding whether it is worth while.

## INGELI(MAGILL) ALSO SLIPS INTO TWILIGHT OF KINGS

Morganatic Marriage and  
\$4,500 Jug Royal House

His majesty King Ell, traveling incognito under the name of Magill, has been apprehended and is now suffering the humiliation of incarceration in the Crown Point jail. Sharing lodgings with him is Prince Steve, his son and heir, and the Princess Rosie. King Ell is a ruler in Romany. A resident of Blue Island, he embarked on the royal journey because of a morganatic marriage and its attending complications.

Six years ago the Princess Rosie was wedded to Antonio Yancos of 116 South Halsted street. Yancos was a likely sort of guy and for the alliance he paid \$4,500 to the king. This sum was duly deposited in the royal exchequer for the purchase of beer and other necessities of life.

A Matter o' Money.

At length the princess left her husband and returned to his majesty's ménage. Thither went Yancos.

Four majesty, "Rosie quit me. I want her back," he said.

"In that case," replied bluff King Ell. "You'll have to come across with \$4,500 more."

Yancos came across.

"Her royal highness will return at once," said his majesty. "If she fails to arrive, report to me and I will give you your money back."

The year ago, the Princess Rosie failed to appear. Yancos finally made formal protest to the king. Meanwhile his niece, Alvara, a princess of another house, came to soothe his anguished heart.

A Princess Is Swatted.

She was at home alone a few days ago when King Ell, accompanied by his royal progeny, appeared to discuss the morganatic marriage.

"My uncle ain't in," announced the Princess Alvara.

"Too bad," said the king. "I need more dough. What is that you have about your neck?"

It is charged that the Princess Alvara is wearing a necklace of her father's necklace, consisting of twenty-five pieces of gold and some diamonds, entered King Ell's breeches treasury.

A warrant was sworn out and Lieut. Shoemaker, accompanied by Detectives Stapleton, Boschulte, and Wachbold, set forth to arrest the royal trio. It was then that their highnesses assumed the incognito of Magill and traveled into the state line. They crossed into Indiana just before the police reached them.

Buf Sheriff William Olds and his posse caught up with them about sixty miles south of Crown Point.

The Princess Alvara and Yancos have agreed to pay the expenses of extradition.

WORK FOR MR. POOLE.

July 13.—[Editor of The Tribune] was interested in our morning paper's account of "milk glasses" being used on pier. I think you are worth while service to expose serving and unjust practices; and while you are writing these practices at the pier, Russell J. Poole's attention is now holding people up at the pier.

The pier two weeks ago had persons who were violating no laws at all, at the pier, to them to the cafeteria. The prices they are charging are little and outrageous when you quality and quantity they trays on which they serve use, being old, dirty, and yet their prices are as high as restaurant in the loop.

WHO WAS TAKEN IN.

TRAFFIC CONGESTION.  
July 13.—[Editor of The Tribune] we had one of the worst cases today, due to Havana and possibly Jackson might from the rule. One way only facilitates the progress vehicles but also speed up of pedestrians. It is to cross the "cooling it" public a clear and without danger "cutting in" or "putting in." WENTWORTH.

Market Dept., Union Stockyards.

## WHO CARES FOR HEAT?

CHICAGO may be as hot as the ice-man's fondest dreams would have it during the next ten days, but 200 poor children and some of their mothers will never know it. For they started yesterday to Camp Reinberg at Deer Grove, in the forest preserves, to spend a vacation as the county's guests.

## LEMONADE STAND PROFITS SWELL TRIBUNE ICE FUND

### North Side Youngsters Aid Tenement Kids.

It was a dingy, dirty street out on the west side. It was the hottest day of all the year. There seemed no respite from the heat; the buildings threw it from side to side, the asphalt softened and was sticky.

On the dry, hot sidewalk were two kiddies, one of 7, one of 4. Both were dirty, sticky, suffering. Nickels for an ice cream cone weren't in their mothers' pocketbooks; water, even though it ran for hours, still was almost lukewarm as they drank it.

Milk Was Sour.

Milk they had—but it had soured in the forenoon from the lack of ice. Father was one of that great recently enlisted army of unemployment.

"Ge, if we only had some ice!" said one. And there's the story.

"Way up on the north side, on a busy street that thronged with bathing

suits and people, there was another sidewalk. There, too, was a soap box with a white napkin cover.

Over it a sign announced in childish letters:

"Lemonade—3 cents a glass."

Their Profits \$1.11.

Four little girls attended to the stand. A pitcher, pall of water, half a dozen lemons, bag of sugar was the stock.

Their mothers called these little girls Betty, Adele, Virginia, and Carolyn. Their other names—but that doesn't matter.

They were working for THE TRIBUNE Free Ice Fund.

So far they have sent in \$1.11. They want so to help the other kids not situated fortunately.

And you? What have you done?

### "GEN. POLECAT" ROUTS GUARD OF J. D. ROCKEFELLER

Tarrytown, N. Y., July 18. [Special.]—In the battle of Pocantico Hills, which was waged at 2 o'clock this morning, John D. Rockefeller's watchmen had to retreat because Gen. Polecat and his army made a gas attack.

In the confusion of battle Edward Lockwood, night watchman, was shot in one of his legs by Joseph Lathem. The leg had to be amputated.

Mr. Rockefeller played golf this morning, although the odors arising from the battle area were unpleasant. Residents of Pocantico Hills expect Mr. Rockefeller may go to Lakewood until the war is over.

## HARDING'S PLAN SAPS STRENGTH OF LEAGUE BODY

Commission Hopes to Aid Washington Parley.

PARIS, July 18.—[United News.]—President Harding's disarmament proposals have sapped the strength of the league of nations commission appointed to study the subject, according to indications here today.

Three subcommittees met today, but decided that the most helpful thing they can do is collect statistics on naval and land strengths and other information bearing on the subject, with the possibility that the data may be helpful to the conference in Washington.

Much information already is at hand. Some of it is confidential, and is said to bear on the secret attitude of various governments toward disarmament. This will be compiled in a series of tables and reports so as to be available for the conferees who respond to Harding's invitation.

Backs Japan's Note to U. S.

TOKIO, July 17.—[The Japanese government's request to the United States for further information as to the scope of the proposed peace conference in Paris is approved by the JU Shimura in an editorial today which expresses belief that if the questions covering the complicated interests involved were taken in hand abruptly, the situation might be complicated and the deliberation as a whole endangered.

Wants Conference Held in Tokio.

The Yorozu Choho, the popular organ, voices a feeling that America should not concern herself about the Pacific, but should attend to the problems of the American continent.

This newspaper charges that the motives behind the conference proposal are selfish and aggressive, and it expresses fear that it would have a dangerous trend toward a rupture.

It demands, furthermore, that the conference be held in Tokio.

### EAGER FOR TRIPLE PACT

[Chicago Tribune Foreign News Service.]

[Copyright: 1921; By The Chicago Tribune.]

LIVERPOOL, July 18.—A Japanese delegation, representing all political parties, arrived here today from New York after a visit to the United States. Take Tanaka of Tokio explained in behalf of the delegation that the members were travelling for pleasure only, but said:

"We want peace in the world and if we find no guarantee for securing peace we will avail ourselves of it. Japan is rejoicing in President Harding's proposals for a conference on disarmament and the majority of our people are hoping for a grand alliance between America, Japan, and Great Britain."

## CHICAGO YEARLY PAYS \$22,500,000 FOR FOREST LOSS

Experts Seek Ways to Grow New Trees.

With the United States depicting forests four and one-half times as fast as nature grows them, it was made emphatically plain before the United States chamber of commerce foreign committee meeting at the Union League club yesterday that "something must be done about it."

"Something must be done," that was the big keynote sounded by a dozen or more speakers, including lumbermen, academicians, and foresters of national reputation, who, after the other, laid uncontested facts before the committee.

But just what is "something" which must be done, no one would definitely state.

### Searching U. S. for Answer.

"That," said W. B. Brookings of Washington, D. C., secretary of the committee, "is the thing that this committee is traveling all over the United States to find out. It would be a wise man, indeed, who could tell us that right now."

"We've squandered Nature's gift—our 800,000,000 acres of virgin forests for seventy years," said D. L. Goodwillie, chairman; "and now it's coming to the time when we've got to face up to the task of making up for it."

Some of the most important facts and figures were given the committee by Col. William B. Greeley, U. S. chief forester. It was he who pointed out to the committee that the total annual cut of all kinds of lumber is \$5,000,000,000 feet, or about four and one-half times the yearly growth, 9,500,000,000 feet. He stated that transportation of lumber is becoming one of the most important factors in the cost to the consumer.

### Adds \$22,500,000 to Chicago's Bill.

"Take Chicago, for instance," he said. "It now costs Chicago \$22,500,000 more a year for freight on lumber than it did thirty years ago. This is simply because the lumber must come farther than it did then; and the reason it must come farther is that the forests of Illinois, Michigan, Wisconsin, Indiana, Ohio, and Missouri have been cut down, and no effort has ever been made to induce them to grow up again."

Another case in point is Pennsylvania. This state, which was formerly one of the biggest lumber producing states in the union, now imports 90 per cent of its lumber. Same with northern Michigan."

Mr. Brookings said there are two bills on forestry before congress at present. One is fathered by Senator Capper of Kansas, an agricultural publication, and the other by Mr. Small, bill of which a lumberman from the Adirondacks is the author. The former aims at federal encouragement of state action on the forestry problem; the latter provides federal regulation of forestry in the states.

## DEBT MUST BE PAID UP, WILSON WARNED BRITAIN

(Continued from first page.)

that connection for the deferring of interest, in the present state of opinion here there is likely to develop a dangerous misunderstanding.

"I believe it to be highly important that a British representative with proper authority proceed to Washington, without delay, to arrange to carry out the obligation of the British government to convert its demand obligations held by our treasury into long time obligations."

### Differences Are Evident.

The United States government recognizes the importance, in the interests of peace and prosperity, of securing the restoration of financial and industrial stability throughout Europe. The war debts of the allied governments, the treaty obligations of Germany under the reparation clauses of the treaty of Versailles, and the annexes thereto, and of other enemies and allies negotiated with them, the administration of countries under the mandates provided for by such treaties, and the existing arrangements between the governments of various countries, have, or may have, an important bearing in making plans to accomplish such restoration.

"It is the view of the United States government that, in accrediting a representative to Washington for the purpose mentioned, it might prove expedient that the British government should authorize him to enter into discussions of all these matters with the proper representatives of the United States."

### Must Pay War's Penalties.

In replying to the British chancellor's cancellation suggestion Mr. House wrote:

"Apparently there are those who have been laboring under the delusion that inevitable consequences of the war can be avoided."

"Of course, I recognize that a general cancellation of such debts would be of advantage to Great Britain, and that it probably would not involve any loss."

"As there are no obligations of the United States government which would be cancelled under such a plan, it simply involves a contribution mainly by the United States."

### Mellon Wants Full Power.

The finance committee was told by Secretary Mellon that he thought it impracticable to begin negotiations for refunding allied loans unless congress gave him authority to conclude them. Continual reference to congress of terms of settlement for its approval would embarrass the government and delay negotiations, he said. He was advocating the administration's bill to give the treasury blanket power to handle all foreign loans.

According to Senator Follette, Secretary Mellon said there were no plans to substitute securities, but he added it was advisable that authority should exist, if necessity arose, to accept substitution bonds.

## AMERICAN LEGION NOTES

Hyde Park post is planning a series of beach parties at the Chicago Beach hotel's private beach this summer. Commander Frank B. Flannery and members of the post tour arrived in Paris on June 19 and after visiting the battlefields will return to London.

A readjustment campaign, by which it is hoped the unemployment situation affecting hundreds of unemployed men may be relieved has been launched by Theodore Roosevelt post No. 827, American Legion. Members of the post are canvassing large Chicago business houses with the view of pledging these firms to give preference to former service men in the matter of employment. Any firms willing to co-operate in this movement are invited to communicate with William H. Kurth, 431 South Dearborn street, telephone Harison 8021.

An open meeting of Cicero post will be held at the headquarters, 62d avenue and 22d street, tonight at 8 p. m.

## ZR-2, AMERICA'S BIGGEST AIRSHIP, NOW AN INVALID

[Chicago Tribune Foreign News Service.]

HOWDEN, England, July 18.—ZR-2, America's greatest airship, is now an invalid in the Howden sheds. The vessel is suffering from injuries to one intermediate plane and four intermediate braces, incurred last night during a trip from Cardington.

Suddenly the gas bag buckled amidships and, instead of making the flight in forty-eight hours, as was intended, the airship reached the Howden air-drome at 5 o'clock this morning.

Mr. Poole's daily bulletin on the campaign to lower soft drink prices follows, in part:

"The prices of soft drinks we find to be especially high in the outlying districts and suburbs. For instance, a soft drink parlor at 11101 Michigan avenue is buying the cheapest bottled goods on the market, artificially colored, at 32½ cents a dozen, and retailing these goods at 10 cents a bottle.

"On the other hand, the South End phonograph, 11101 Michigan, is selling large ice cream cones for a nickel each and putting out a good soda for 11 cents, and making money on both. A few blocks away the Pacific Confectionery company, 11450 Michigan avenue, is charging 10 cents for the cheapest grade of pop and other soft drinks."

## STRIKE AGAINST LEMON PRICES URGED BY POOLE

Stored at \$3 Case; Now as High as \$16.

A strike of lemon-buyers was advocated yesterday by Russell J. Poole, secretary of the council, H. C. of L. committee, as the only effective method of combating the present soaring prices of lemons, this being a part of the campaign to cut the price of sodas.

"Lemons went into storage at April 13 a case," says a letter from Mr. Poole to Ald. Sheldon W. Govier, chairman of the committee.

"The exorbitant price is the result of price juggling. If the public would stop buying lemons for a few days, the lemon prices would make up and the public would get a wholesome summer drink at a reasonable price."

The Boston Candy shop, 1101 East 55th street, joined the committee's list of "fair price" soda dispensers during the day with the announcement that hereafter plain syrup sodas and suns will be 11 cents, including the tax; with crushed fruit, 15 cents, also including the tax.

Mr. Poole's daily bulletin on the campaign to lower soft drink prices follows, in part:

"The prices of soft drinks we find to be especially high in the outlying districts and suburbs. For instance, a soft drink parlor at 11101 Michigan avenue is buying the cheapest bottled goods on the market, artificially colored, at 32½ cents a dozen, and retailing these goods at 10 cents a bottle.

"On the other hand, the South End phonograph, 11101 Michigan, is selling large ice cream cones for a nickel each and putting out a good soda for 11 cents, and making money on both. A few blocks away the Pacific Confectionery company, 11450 Michigan avenue, is charging 10 cents for the cheapest grade of pop and other soft drinks."

## Save as You Earn

ANYONE who can save a few dollars per month can become the owner of one of our First Mortgage Real Estate Gold Bonds earning from 7% to 8%.

You get the same security as our largest customers including banks and big corporations and you also receive the highest rate of interest.

### OUR PARTIAL PAYMENT PLAN

makes it just as easy to purchase one of our Safety Bonds as to buy goods at the store. Investment Information is gladly given by us without obligation. Come in or write for illustrated literature.

## The New Improved Gillette

Patented January 13th, 1920

EVIDENCE of the confidence of men the world over in this great achievement—the New Improved Gillette—is briefly this:

Announced to the public on May 16th, 1921. Demand unforeseen by many dealers.

A week later "RUSH" orders from these same merchants.

At one time, it looked as if New Improved Gillettes were at a premium.

Within a month, distribution showing signs of catching up with demand, in spite of unfilled orders.

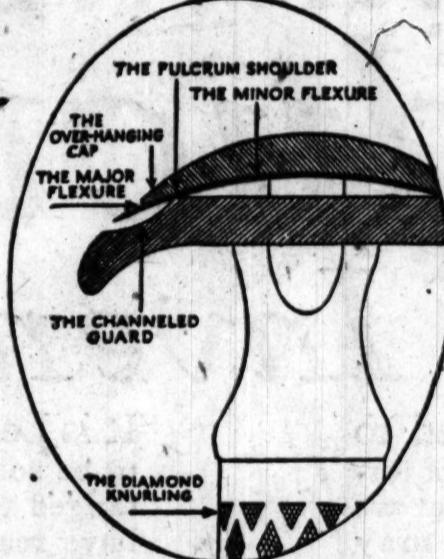

Today, the factory still making an effort to catch up—with 500,000 New Improved Gillettes already sold to the first 500,000 lucky enough to get them.

The most spontaneous response to any razor of any type since the world began making and using shaving implements.

Go to your Dealer today and get a New Improved Gillette

NOTE:—The Gillette Company assumes full responsibility for the service of Gillette Blades when used in any GENUINE Gillette Razor—either old-type or New Improved Gillette. But with IMITATIONS of the genuine Gillette, it cannot take responsibility for service of Blades.

GILLETTE SAFETY RAZOR COMPANY, BOSTON, U.S.A.

The New Improved  
GILLETTE SAFETY RAZOR

Note the position of the blade in the New Improved Gillette. The blade automatically touches the face at the correct angle to cut the hairs clean through.

See how the head of the razor is rounded to make a guiding surface. How the shaving edge is controlled relative to this guiding surface so the shaving edge cuts the hair right off the surface of the skin.

The New Improved Gillette uses the same fine Gillette Blades as you have known for years—but now you get More Shaves from Your Blades—all the luxury of the finest shaving edge in the world. Identify the New Improved Gillette by its—

## PUTTING THRILL IN STUDY, PLAN OF KIDS' MUSEUM

Where Learning Becomes  
Exploration.

### BY EYE WITNESS.

New York, July 18.—[Special.]—Boys and girls, what I especially like in watching the work and the play at the Children's museum is that they make everything so cheerful to study and so easy to understand.

You know that generally you can scare the children out of a little girl by showing her a human skeleton. Girls do not seem to like such things.

But here they take a human skeleton and make it an entertaining page in a story—the story of the development of animal life from the lowest to the highest forms. They begin with the pictures and draw the children on from one exhibition case to another and along one aisle lined with specimens into another, the "story" going on all the time and growing more wonderful until at last the docents bring the procession to the skeleton of a man who is so placed that he, the highest unit, faces the opening study, which was the opening study, which was the opening study.

### The Skeleton That Smiled.

One day a little girl in the procession was so interested that when she reached the skeleton she was on tiptoe with excitement, and she cried out, "What a real man!"

"Yes, a real man," said the docent. "Well?" said the little girl, "wasn't she dieing smelling?"

She was not scared at all.

Another thing they try to do at the museum is to show us young people how Nature puts beauty and design into everything she does if only we will look at her works with seeing eyes. There is one large case that is just a blank of beauty. It is in three sections and contains things that have their being on the earth and in the water beneath, and in the heavens above, and everything in it is radiant with beauty. It was almost like praying to stand before that treasure-trove of lovely marvels.

### Learning History.

The way they teach history in this museum—or rather the way they let you learn history without knowing you are being taught—is just as fascinating as the way they teach zoology and mineralogy and several other allogies that I cannot remember even the names of. A boy of Latin parentage, for example, coming to our country with his father and mother here can learn that long, long before his father came to this country, many other men and women of his race landed on these shores and made brave history here. This he learns not from flat pictures in a book nor from wordy descriptions, but from models that are as amusing and vivid as women in a play—all worked out to the minute details of uniforms and firearms and boats and dresses.

All this is good for foreign boys, boys and girls, and among us, too. If we learn them how men of their race helped in the making of America two and three centuries ago. Therefore these boys and girls do not feel so much like strangers in a strange land. They get to understand that they, too, have a grand part to play, just as the old folks had.

You see the Puritans, the Patroons,

and the Cavaliers at work and at play—drinking tea, making love, entertaining the minister, and going to school—and, seeing all that, you comprehend

## "SUNNY SIDE UP?"

Policeman Patrick Durkin bent to the pavement in a loop street yesterday and gracefully broke and fried an egg. "Sunny side up?" he inquired cheerfully. "It's hot enough to give it to you in any style you wish." But the photographer wasn't thinking about the egg on the pavement. He was wondering how the policeman kept his good humor—with his coat buttoned and his hands covered with gloves, to conform to the departmental regulations. Evanston has adopted a "shirt waist" uniform for its patrolmen.

[TRIBUNE Photo.]

very affectionately that they, like us, were just "folks."

One of the civil war models shows President Lincoln in Gen. McClellan's tent the day after the battle of Antietam, the great fight which came to nothing because McClellan, as usual, could not make up his mind to attack decisively. To the Hooker losses the President is sitting in the general's tent and officers of the staff are asking him to come and look into a bit of thicket near by, where, amid the awful wreckage of war, lie a child's red car and other playthings. But Mr. Lincoln turns his head away and stays in the tent, saying to the soldiers: "No, it is bad enough to be making war on men, without seeing how it is made on children."

**Report Countries "Brought Near."**

Then, if you want to fare into distant parts of the world, you can travel in a whole room full of models that give you pictures that almost talk of the desert Arabs and of African savages hunting lions and of the Arctic shining under the light of the aurora and of Lapland. These models are so accurate and vivid that you get in two weeks an idea of the climate, soil, flora, and fauna of those lands, together with the occupations of the people, but they also are so detailed that you can linger profitably over them for hours. Admiral Peary, discoverer of the North pole, passed on all the details of the arctic models, so they must be correct.

Now you see how they visualize distant parts of the world for you in this museum just as tellingly as they visualize great events in history. If a fellow passes a good examination on what the contents of a particular room have taught him, he gets a certain number of credits and if he does that with all the rooms he gets a medal.

They have games, too.

One of them is like this: A certain

## FIVE CHILDREN HURT BY AUTOS AND STREET CAR

Five children and a woman were injured by automobiles and a street car late Sunday night and early yesterday morning on the northwest side.

Jerome Rath, 4 years old, 1424 North Western avenue, was struck by the automobile of N. M. Kalines of Wilmette, suffering a fractured skull and internal injuries.

Edmund Nowak, 6, 2161 North Claremont avenue, while alighting from a street car was hit by an automobile owned by the Sims Motor Livery company.

Stanley Xolewaki, 8, 1227 West Chi-

cago avenue, was injured by an automobile of the Russo Ice Cream company.

Anna Holaya, 6, 1215 Cleaver street, was hit by a Division street car. Her head and arms were cut.

John Kloczak, 4, 821 North Ashland avenue, ran into the path of an automobile driven by Stanley Voltesiewicz.

Mrs. Veronica Tokars, 25, 3038 North Drake avenue, while waiting for a street car at West Chicago and North Ashland avenues, was struck by the automobile of A. Jaminski, 4220 Milwaukee avenue, receiving bruises on the body. Jaminski was held by the police.

John Jira, 8, 5503 South Hermite avenue, died in St. Anthony's hospital of injuries suffered July 13, when he was struck by an automobile.

## TWO CARPENTERS' LEADERS FINED \$500 FOR STRIKE

William Brims, former president of the carpenters' district council, and Thomas F. Church, business agent for local 11 of the carpenters' union, were each fined \$500 yesterday by Judge Oscar F. Torrison in the Circuit court on charges of contempt for calling a strike of the carpenters last year in violation of an injunction.

The injunction was issued in 1914 to Anderson & Lind, manufacturers of boxes. In 1920 Brims and Church issued strike orders because nonunion materials were being used. They claimed the injunction did not forbid a "peaceful" strike. Judge Torrison held otherwise.

Gentlemen, it's really  
a serious subject

Many persons fail to appreciate the tremendous effect upon the efficiency, happiness, and even the duration of their lives that is exercised by neglect of a habit of insistence upon high quality in all food consumed.

No consideration of economy of expenditure that is based on acceptance of food lacking quality can be supported. The sound plan in a situation necessitating strict limitation of expenditure is to diminish the quantity of food—never the quality.

Henrici's is a safe place in which to eat, and one in which the average of prices is as moderate as is consistent with highest quality.

When motoring tonight, why not come to the Loop for light refreshment? There are, near Henrici's, unrestricted parking privileges at night-time.

## Why make an all day job of washing clothes

When this new soap product  
soaks them clean in a few hours.

ARE you still bending over the washboard in the middle of the day—rubbing away your strength?

Or do you have your clothes ready for the line an hour after breakfast?

Hundreds of thousands of women who used to take all day to do their family washing are gaining time and storing up strength for the things they really want to do by

soaking their clothes clean in Rinso.

This new soap product, made by the makers of Lux, is a perfect combination of pure cleansing materials that loosen and dissolve the dirt from even the heaviest pieces of the weekly wash without injuring a single fabric. You do not have to rub anything but the worst spots such as cuff edges, and these only lightly.

Don't rub your youth away. Get Rinso today from your grocer or any department store. Lever Bros. Co., Cambridge, Mass.

Perfect in washing machines  
With Rinso you don't have to do any rubbing. Follow regular washing directions. Then, before operating the machine, add a fresh Rinso solution, using the same amount of Rinso as you used for soaking. No other product is needed when Rinso is used.

Made in U.S.A. 8¢  
Rinso

Dissolve: For each tub of clothes thoroughly dissolve a half package of Rinso in two quarts of warm water. When water is hot add detergent, soap, or soda. Even after the clothes have been put in.

Pour into tub of lukewarm water—mix well. Keep adding the solution until you add a sufficient amount of water. Then, turn on the machine, until water covers every particle of dirt. Rinse, to remove the loosened dirt, till water runs clear.

The "hit or miss" method

Take your business for instance. How far would you get on the road to success if yearly profits were expended on "hunches," or the advice of a chance seatmate on the 8:24? Yet every day men invest accumulated thousands on advice and inaccurate information gleaned in some such haphazard way.

To make your money earn a legitimate interest return, to build up an adequate income fund for your own protection, and—more important still—safeguard the future of your family, you should have a definite plan of procedure. Know what your surplus funds should yield. Invest, only after careful thought, in securities which insure that rate, and also the prompt repayment of full amount of principal.

Our business includes the making of detailed investigations, taking nothing for granted. We help you formulate a practical investment plan. Phone, call or write.

BY I. E. SANBORN.

In spite of Dame Fortune, a leak in the aerial dam and several other handiwork, the White Sox won both ends of a double header yesterday from the Red Sox, although it took from noon until well past 4 p.m. to do it, and the folks who stayed to root went home to cold supper. The scores were 5 to 4, ten innings, and 4 to 3 in nine, the second encounter being decided in the last round after it was 10 to 10 in the ninth.

Barber's Homer Clinches It.

It was Turner Barber who saluted the game door for Chicago, when, in the fifth inning, with two on the bases, he drove a homer to the distant parts of center field. At the time the blow was struck the count was three to one.

After that punch the Robins were completely licked, and had to listen to the jeering and joshing of their own fans for the balance of the game. Fine, jolly fellows, these Brooklyn fans.

Dutch Reuther was extracted from his probationary period to pitch the game and lasted through the fifth. Barber's four baser is likely to drive him to his probationary quarters. Clarence Mitchell took the short job in the sixth and was nickered for a couple of runs before the game ended.

Turner Barber Heavy Stick.

Terry's timely swatting at the two runs would have been the feature had Barber come forth with his Homer. Hollister got two walks and a single in five times up.

After the Robins gave the Cubs a tally in the first, when he began by walking Flack and Hollister, Terry bunted them along and Flack counted when Barber forced Grimes, who was purposely passed. Holly and Terry produced one in the second when, with one out, Holly walked, and legged it.

Two More for Good Luck.

After two walks in the sixth, a run was wasted in ninth. Flack singled, stole second, and romped in on Hollister's neat single down the left foul line. The final tally in the ninth was started by Kelleher, who replaced Barber.

This same pair started the fusillade that netted four runs. In the fifth, Holly singles, Terry walked a double to right center, and home. Grimes was punched out, then Barber poled a heavy past Myers to the depths of center field and made a home of it by splendid leg work.

Driving in the eighth, Barber hit a single.

The Robins' tally came in the third.

After O'Brien opened with an infield single and a second on Dealy's wild throw, Johnston singled. Olson stepped at third. Griffith hit to Terry, who made a bad toss to second, and all were safe, Olson scoring, and all the next play the Cubs turned a double play and got out of trouble.

Terry Plays Heavy Stick.

Terry's timely swatting at the two runs would have been the feature had Barber come forth with his Homer. Hollister got two walks and a single in five times up.

The Robins gave the Cubs a tally in the first, when he began by walking Flack and Hollister, Terry bunted them along and Flack counted when Barber forced Grimes, who was purposely passed. Holly and Terry produced one in the second when, with one out, Holly walked, and legged it.

Boston Starts at a Gallop.

Hodges was the star of the overtime combat which started the show, and he spotted the enemy three runs in the first round of the day. But Kerr tightened and held the Red Sox to one more tally, which came over in the seventh. Sheely's double and Schalk's triple scored the first home tally. Johnson's triple and three more singles counted only one in the sixth, because a hit and run play went wrong, but all the right-handers were gone, singled by Yarnay, Falk, and Sheely, tied the score with two tallies.

One down in the tenth, E. Collins and Strunk peeled off singles. Falk filed out, but Sheely worked the bases. McClellan also waited until he was awarded a base on balls, which won the game, but Little Mac came close to pulling a bunter, for the instant that fourth ball was hit, he started for the bench instead of first base. Bill Gleason showed him on his hand and prevented any possible Merkle tangle.

Homer Starts Second Game.

In the second game Strunk whirled a four bagger into the right field stand with Eddie Collins on first base as a free passenger, in the opening round. Yarnay, Hodges, and Johnson singled in the second and made a third tally, driving Russell off the slab with nobody out. Sheely's home run was the only one in the second, and it was enough to give the Red Sox a two-run margin, which was increased to three in the next chapter. He blanked the Red Sox until the sixth, then let them bunch four hits on him for three runs, which tied the score.

That knot held until the end of the eighth, when a storm broke and suspended play for half an hour. At the end of that period the grounds were all gooey, and the uniforms were all wet. And the White Sox coppered in the last half of the ninth before anybody had a hit. Hodges bunted toward first and was safe. Karr slipped and fell down. Davenport was put on to run for Yarnay. Johnson foiled two attempts to sacrifice and whatched a single over second and Davenport skidded home with the winning tally.

BALL NAMES FOHL BROWNS' '22 PILOT

St. Louis, Mo., July 18.—Phil Ball, owner of the St. Louis American, today announced the reappointment of Lee Fohl as 1922 manager. The announcement was made at this time. Mr. Ball explained, to stop rumors that Fohl was to be released.

Woods, and Waters, &amp; Larry

NOTES BY THE WAY.

ALTHOUGH a change in weather usually brings a change in men's luck, do not expect much from the recent drop in temperature. It will take some days to affect the water temperature, which is very, very high—all up, in fact.

A 30 inch trout, weighing 10 pounds, was caught recently in a stream near Spencer, Wis.

If the state is going to raise salaries we would suggest slipping a bit more into the envelopes of our state game wardens. The present pay paid to wardens is a crime. That pay is to be increased by the amount of fines paid into state treasury in the last four years. \$17,664.81; 1921, \$21,307.48. The amount raised for the fiscal year 1921 was over \$1,000,000.

It is Ruth's thirty-sixth circuit drive this year, and was made off Cole. The slugger scored one runner ahead of him. Score:

DETROIT

36

One of our readers is looking for a partner for a western fishing trip. We have one today to a durable fisherman who is willing to go with him on a trip either to the National park, the Gunnison river or the Snake river country in Idaho. In addition to my pro rate expenses, we contribute plenty of enthusiasm, considerate players, and a quart of very good beer, don't crowd—a quart of very good Scotch."

You're Sure  
Due to Like  
This "Carnival"

**CARNIVAL**

Released by United Artists.  
Directed by Harry Knoles.

**THE CAST**

Silvio Steno ..... Matheson Lang  
Hilda ..... Hilda Bettie  
Count ..... Charles Herbert  
Lello ..... Clifford Gray  
Baroness Ottavia ..... Duchess D'Ansolia  
Nino ..... Twinkles Hunter

**By Mae Tinée.**

**Y**OU will find "Carnival" fascinating, unless I'm greatly mistaken. It sure held my interest from start to finish.

The picture they tell me is foreign made. The director's name is familiar to the fans, but the members of the cast are all strangers. And they are brilliant, engaging strangers! They are Harry Knoles' work! How polished their technique! They give you their best, and their best is something to be reckoned with.

The story is about a famous Shakespearean actor and his lovely wife who plays opposite him. Their home is in Venice—and here the photographer comes to the front and makes the screen beautiful for you.

It is carnival time when the picture starts and Venice is mad with carnival spirit. Simona has persuaded her husband to take her to the ball, though he doesn't care about it, being busy in preparation for his opening the following night with Othello.

"Why, the Count," Andrea asks, "show such a play for such a time? The public is in no mood for anything so gloomy."

The actor replies that he has always longed to play Othello, though, he avers with a laugh and a shrug, he thinks Shakespeare was off on his psychology of the Moor. A man would never be that mad with jealousy. If his wife pretends another, why all means let her go her way. Surely no man would kill in such a cause.

From then on the stormy becomes tense. Silvio finds himself confronted by much the same problem that confronts the Moor and the opening night finds him not acting but living his role with such reality that they are obliged to fear his fainting wife, who is Desdemona in the play. The audience has been uneasy and thrilled all through the performance, but the final curtain is down when the real curtain occurs.

How the girls are going to adore Matheson Lang and how the men are going to fall for Miss Bailey! And how EVERYBODY is going to enjoy the picture. (I think.)

**CLOSEUPS**

Houdini, "the handcuff king," has just completed the first of the four pictures he is to make. The title is "The Man from Beyond." He wrote it himself.

Little Ben Alexander, the small chap in "Hearts of the World," is in town making a round of "personal appearances."

Jack Holt's horse, Robin Hood, recently broke the southern California record for high jumping with a score of six feet six inches.

**BEAUTY ANSWERS**

BY ANTOINETTE DONNELLY.

GRAY HAIR: CURATIVE TREATMENT for gray hair is without avail. Grayness is largely a matter of heredity and age. Sometimes it is influenced by deep emotional and mental strain. The best thing to do with gray hair is to give it extra care in shampooing. Keep it always well dressed. Dyed hair is rarely a success, because it does not suit the complexion, for no matter how prematurely one's hair may whiten, the same chemical change has been working in the skin, and so the betrayal. I don't mean to say all lyes are harmful, but once you begin dyeing hair you are in for a lifetime of care and expense.

EILLA: IF THE NAILS BREAK easily they should be soaked for a couple of minutes at night in warm sweet almond oil or olive oil. The liquid may be put in a dish of just sufficient depth to cover the finger tips. The same oil may be used several times. Cold cream run under the nails is found quite efficient, too.

If some one has a small ice box or chest which is not needed, it would be a great help and comfort to a family without one and without the money to buy one. At present the house has no screens, and it is impossible to protect the food from the flies. Any size chest or box can be used to good advantage.

"M. G. H."

Thank you. Your address will be given to the person who can wear the shoes you so kindly offer.

**Owendavia Club to Revive Hunting Early This Autumn**

PLANS are well under way to revive hunting at Owendavia this fall, according to members of the club path committees, which is working under the direction of the board to make this one of the most attractive features of the club's activities.

Dog hunting will start in September

and will continue through the fall

months. The hunts will be over the

same territory as used for the popular

paper chases which were so enjoyed

last season. A pack of English fox

hounds have arrived at the club ken-

saw and the paths and jumps are be-

ing put in excellent condition.

If the sport proves popular with On-

wendavia members, there should be some

pictureque figures in pink coats be-

fore frost comes.

There will be a dinner dance this

evening at the Chicago Yacht club.

Mr. and Mrs. Rudolph Altroch of

the Blackstone avenue will give a

dinner this evening for Mr. and Mrs.

Charles Evans Hughes Jr. of New

York who are spending a brief time in

Chicago on their way west. Mr. Hughes is a son of the secretary of state.

The members of the Garden Club of

Illinois and the Evanston Garden

club will be guests of the Lake Geneva

Garden club tomorrow at luncheon.

Following the luncheon at 12 o'clock

Miss Lowe Smith will give an illus-

trated lecture on "Milkweeds and Their

Insect Guests."

Mrs. Charles A. MacDonald of New

York, who has a house in Winnetka

for the summer, gave the third of a

series of talks on gardens yesterday

morning at the residence of Mrs. Harry R. Clow in Lake Forest. Her

subject was "The Evolution and De-

velopment of Grasses." Among those

present were Mrs. Donald R. McLean,

Mrs. B. A. Eckhart, Mrs. Alton C.

Spalding, Mrs. Charles H. Acker,

Mrs. William E. Clow, Mrs. Russell Tyson, Mrs. Carter H. Fitz-Hugh, Mrs. Albert B. Dick, Mrs. William A. Yager, Miss Marquette Sarver, and the Misses Jeanne and Catherine Colvin. The next meeting will be held this morning with Mrs. Arthur G. Frost, who has the Arthur T. Al-

drone home for the summer.

Mr. and Mrs. Edward Larned Ryer-

son of Lake Forest have left for Man-

chester by the sea, to join their son-in-

law and daughter, Mr. and Mrs. Donald

J. Frost of Boston, who have a house

there for the season. The Ryersons

have moved to Hyannisport, Mass.,

where they are leaving this week.

Miss Julie Junkin Ravanel of Balti-

more, Md., is the guest of her relatives,

Mr. and Mrs. Francis T. A. Jenkins

of Lake Geneva.

Mrs. Ralph H. Poole, mother of three

of Lake Forest are spending a few weeks

with Mrs. Poole's mother, who has a

cottage on Long Island.

Mrs. LeRoy A. Goddard of 1419

North State Parkway will return today

from a month's visit with her sister

in Helens, Mont.

Mr. and Mrs. Lee Sturges and Miss

Louise Buddig of Winnetka have gone

to Glencoe Park for a month's stay.

Mr. and Mrs. John F. L. Curtis and

children, Dorothy and Jack, of High-

land Park, have sailed for a three

month's stay in Europe. Their son

probably will attend school at Oxford

in the coming term.

Mr. and Mrs. Richard T. Fox of

Wheaton have gone to Big Stone Gap,

Va., to spend ten days with Mr. Fox's

mother.

Picturesque Roaring Rock, on Little

Traverse Bay, is attracting many Chi-

cagoans these warm days for bathing,

boating, and dancing. Among those

who are there for the season are Miss

Margarette Otis and Lucius J. Otis of

2033 Prairie Avenue, Mr. and Mrs. Lu-

cious A. Hine of Highland Park, Mr.

and Mrs. Nettleton Neff and children of

1818 Ridgeley court, Mr. and Mrs. Wil-

liam S. Snell, Mr. Chester Wootton

and Mrs. Mary Norton of Evanston,

and Mrs. Arthur K. Emerson of High-

land Park.

**NEW YORK SOCIETY**

New York, July 18.—[Special.]—Mr.

and Mrs. Paul Fitzsimmons, who have

been occupying Harbour View, their

villa at Newport, since their return

from Lima, Peru, will leave today for

their camp in the Adirondacks.

Mr. and Mrs. Clark Williams have

returned to Port Chester, N. Y., from

Cold Spring Harbor, N. Y., where they

were the guests of Mrs. Frederick F. Thomp-

son.

Mr. and Mrs. A. Murray Young, who

are spending the summer at Bar Har-

bor, Me., will give a dinner party at

their home on Saturday evening, July

23, in honor of Mrs. Whitfield Reid,

who will be their guest.

Mrs. Frederick Martin Davies and

her daughter, Miss Emily Davies, who

are in London on August

3, will join Frederick L. Davies Jr. and

Audrey Davies at Southampton shortly

after their arrival. Mr. Davies and

Mrs. Audrey Davies are with their

grandfather, Eugene O'Neill.

Mr. and Mrs. James W. Gerard will

give a dinner at Meadowmere, their

villa at Southampton, on the evening

of July 19.

## JERREMS, RICH CLOTHIER, TELLS OF WHISKY RING

"De Luxe" Quiz May Hit  
Big Politicians.

Donald Jerrems, wealthy clothier, living at 1544 Astor street, was among the five witnesses who appeared yesterday to testify before the federal grand jury in the "de luxe liquor ring" case. The "Whisky syndicate," said to have been headed by Mr. and Mrs. James W. Walsh, now under bond in Detroit, is alleged to have sold between \$75,000 and \$100,000 worth of liquor to prominent Chicagoans, some of them millionaires.

The second woman involved in the investigation, Miss Isabelle Williams of 210 Pine Grove avenue, failed to appear, although she had been subpoenaed for yesterday's hearing.

"If she fails to show up today there'll be a writ of attachment issued for her," said Roy J. Egan, assistant United States attorney in charge of the case.

**May Involve Big Politicians.**

Revelations which may involve several politicians of national fame are expected to develop as the result of the testimony of witnesses, according to Mr. Egan. He refused to elaborate his statement. It is supposed, however, that the liquor ring was operating in Chicago during the Republican national convention, and that the liquor was sold to politicians at that time.

The circle of investigation is being considerably widened by the testimony of various witnesses, Mr. Egan said. Although he only expects to ask for five additional depositions, his powers rest with the grand jury and they may return other indictments. Mr. Egan believes it will be several days before all of the evidence will have been presented.

**Eight More to Testify.**

At least eight more witnesses are expected to appear today. Mr. Egan said he would not be surprised, as the evidence developed, to see the grand jury ask for several forthwith subpoenas.

## COWBOY NEARS RECORD MARK IN GRANT PARK TEST

Several thousand persons saw Mike Hastings of Cheyenne, Wyo., "bulldog" a steer in nine and four-fifths seconds at the annual cowboy contests in Grant park yesterday. His time was within two-fifths of a second of the world's record. Hastings is now leading with the best average in the race for the world's championship in this event.

Hank Potts of Los Angeles was injured in a fall. When he was riding in the saddle bronc mount carried him into the fence. He may be out of the rest of the contest.

The Chicago and Milwaukee electric line will run a special excursion to Chicago next Sunday to bring 1,000 persons from Milwaukee to see the cowboys in action.

About 1,000 wounded service men saw the contest yesterday as the guests of Business Manager E. F. Carruthers. They were brought to the arena by the war service workers of the Knights of Columbus. Thursday afternoon 250 Yankees from the vocational training school at Fort Sheridan will be the guests of the management.

## RICHARDSON AND MRS. NERGER ARE FREE'D BY COURT

Frank Richardson, former mobilization director, and Mrs. Frank Nerger of 208 South Harvey avenue, Oak Park, who were arrested some time ago on a charge of disorderly conduct on complaint of Mrs. Nerger's husband, were discharged yesterday by Police Magistrate W. Stevens Lewis of Oak Park.

## CORNISH, FACING DEATH, WENT TO MEET IT, THEORY

### Weak Heart Doomed Suicide, Claim.

The suicide of Frederick W. Cornish, lawyer, real estate dealer, and former mayor of Lake Bluff, in his office in the Real Estate Exchange building, was due to despondency over ill health and family troubles, a coroner's jury decided yesterday.

But his friends said last night that a heart lesion was principally responsible. Physicians had said he might expect death at any time, and they believe he preferred to go to meet it.

The police are attempting to find a Miss Allen, however, to obtain further information concerning Cornish's affairs. She was employed in his office, but is now on vacation, and no clew to her address was discovered in the trunk.

Cornish, who at one time was secretary of the Waukegan Harbor and Dock company, was found in his office, room 709, at 40 North Dearborn street, early yesterday morning. There was an automatic in his hand. He may have killed himself Saturday night or Sunday.

He had labeled all his keys—those to the garage, those to the winter home at Sarasota, Fla., those to the summer home at Crab Apple Island, Fox Lake, and those to the Oak Park home at 220 North Linden avenue. He had also left a note for his attorney, Horace W. Cook, three notes for \$10,000 each and had marked four passages in the gospel of St. John, touching on life after death.

Cornish left his wife last year. She blocked suit for separate maintenance recently, alleging infidelity. The woman was said to be "unknown" but her attorney names Mrs. Elizabeth Mann of 6528 Sheridan road.

The police found in Mrs. Mann's apartments a trunk marked F. W. C. The janitor said Mrs. Mann had been away several months, but had come home Sunday night, taken two suitcases, and left.

Cornish divides his law practice

had a realty business and is said to have left an estate of \$100,000.

## LANDIS PREPARES TO GIVE BUILDING WAGE DECISION

### Findings Will End Long Chicago Dispute.

Indication that Judge Landis, arbitrator of the building trades wage and working rules dispute, is about to render his decision was given yesterday.

Putting aside court duties, Judge Landis spent most of the day behind locked doors in his chambers. Only one or two persons, who were called for conference, were admitted.

It is expected his decision will dispose of the building trades controversy that has been developing since when members of the Building Construction Employers' association and the Associated Builders reduced wages. The workers refused to accept the proposed cut and the employers declared a lockout.

**Deadlock Halts Building.**

Just at a time when resumption of normal building operations was expected, the deadlock, resulting from the dispute, tied up virtually all construction

**Mandel Brothers**

Men's Shop, Second Floor

Models for Men and Young Men

## Mandel Brothers

Luggage section, sixth floor

## 200 Murphy wardrobe trunks —another shipment—specially priced

Larger and larger grows the "Murphy" clientele—in every city, in every state—for "Murphy" appearance, convenience and durability are of a high order. These Murphy trunks at 37.50 are usually \$55.

45 x 21 x 23-inch size;  
of 3-ply veneer basswood

**37.50**

With roomy drawers,  
pockets, hangers, etc.

Covered and bound with heavy vulcanized black fiber; open bulge top; double hinges; draw bolts; burglar proof lock. Double clothes retainer; wood bottom drawers; 6 combination suit hangers; 2 coat, 2 princess hangers; shoe pockets; large drawer for women's hats; 3 deep drawers for packing; fancy cloth lining. Other Murphy trunks, \$30 to \$150.

You may secure Murphy trunks at Mandel Brothers' only, in Chicago

jobs in the city and threw thousands of men out of employment.

Carpenters, bricklayers, and other skilled workers had been receiving a maximum of \$1.35; the scale of unskilled workers was a minimum of \$1 an hour. The proposal was to reduce the pay of skilled workers to \$1 an hour, and unskilled to 70 cents. Trade unions opposed any reduction.

When all other efforts at conciliation had failed Judge Landis was proposed as arbitrator.

**Trades Agree to Accept Edict.**

All trades except the Carpenters' District council promised to abide by his decision.

The carpenters finally agreed to accept the Landis wage award, providing their claim to the maximum pay given any trade be recognized. Judge Landis indicated he did not believe they should be given any preferential guarantees. The status of this angle of the dispute is rather uncertain.

**Mother to Regain One of  
Two Children She Seeks**

Mrs. Gladys Frankenstein, fighting to regain her two sons, has had the younger in a few days. This is Kenneth, taken by Mrs. Walter Grable, wealthy society woman of Highland Park, to Seattle. Mr. Grable yesterday informed Hugh Caperton, attorney for Mrs. Frankenstein, that his wife is coming home and will give up the baby. Mrs. Frankenstein two years ago placed her children out to board while she was ill. The older boy was adopted by Policeman James Caul of the Deering street station, and Mrs. Frankenstein is fighting for him in the courts.

**ATTY. F. W. CORNISH.**

It is expected his decision will dispose of the building trades controversy that has been developing since when members of the Building Construction Employers' association and the Associated Builders reduced wages. The workers refused to accept the proposed cut and the employers declared a lockout.

**Deadlock Halts Building.**

Just at a time when resumption of normal building operations was expected, the deadlock, resulting from the dispute, tied up virtually all construction

## MARSHALL FIELD & COMPANY

### Pickard China

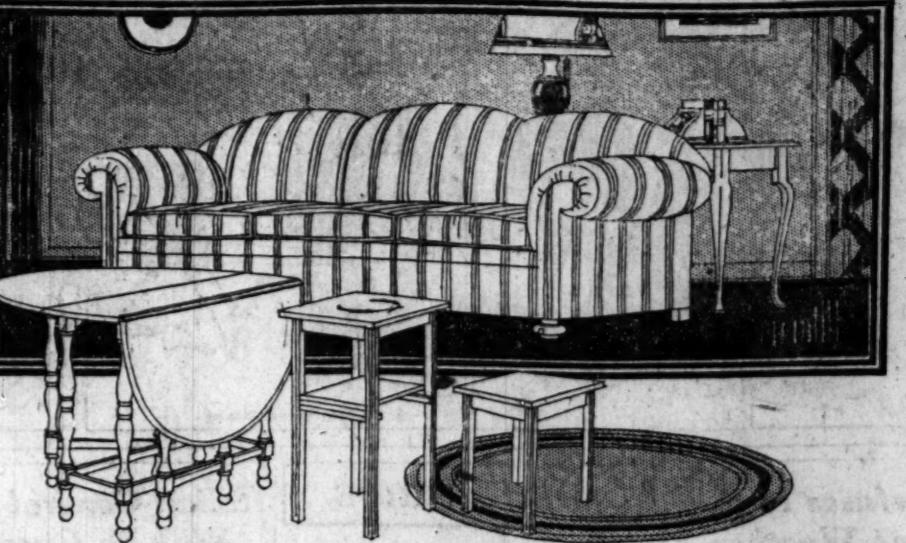

Imperfect Pieces Priced  
Very Low

REMARKABLY low prices prevail in this special Selling of imperfect pieces of Pickard China.

All sorts of pieces are included in this offering, presenting a wide variety of interesting and distinctive designs. In addition to the rich gold encrustation that characterizes this China, many hand-painted motifs and picturesquely scenes lend charm to hundreds of pieces.

In most cases the imperfections are so trivial that not but a practiced eye can detect them. The values are exceptional.

Second Floor, North, Wabash.

## Special Values in Fine Furniture for Comfort and Convenience

THE items illustrated above have been selected as offering particularly good values at this time. They will add charm and comfort to any living room and give the lasting service that fundamental good quality always yields.

### These Pieces Sketched Above.

The Frieze Sofa sketched is simple yet attractive in design and rich in effect. \$195. Other odd Sofas in motion and silk velours at the same price.

The Sofa Table is of combination mahogany. There are two interesting designs to choose from. \$29.

Eighth Floor.

Telephone Set is hand decorated in a pretty floral design. A number of pleasing patterns to select from. \$15.75 each.

Gateleg Table with solid mahogany oval top, 36x42 inches. \$29.

Eighth Floor.

## A Fibre Rocker at \$9.75

THIS is merely another example of the striking values offered in our July Sale of Reed and Fibre Furniture. The items included in this Sale are all of our regular grade. They conform in every detail to the careful, exacting standards that have created for our Furniture its enduring reputation for high worth.

Graceful in design, light yet strong, Reed and Fibre Furniture is especially suitable for Summer use in sunroom or living room or on the porch.

The Rocker sketched offers an exceptional value at \$9.75.

Eighth Floor.

### One Viewpoint of an Important Sale—

### Integrity in Towels

WHEN we present to the public even so humble a household commodity as towels we see to it that all the ideals of this institution—all the force of its organization—are bent on the practice of perfection in detail. The care and efficiency devoted, from the raw cotton to the finished product, sum up a service that gives the public comfort in good towels.

At an opportune time when towels are in good demand—at resort and at beach, in summer homes, clubs, hotels, boarding houses and in the home—we offer a special opportunity to get acquainted with Fieldale Quality. The following are representative values.

Double Thread Turkish Bath Towels, size 20x40 ins., doz., \$3.00.

Bath Towels, size 24x48 ins., doz., \$6.00.

Cotton Huck Hand Towels, size 14x24 ins., doz., \$1.05.

Cotton Huck Towels, white or blue border, size 18x36 ins., doz., \$1.75.

Linen Section—Second Floor

## Imported Holland Ware

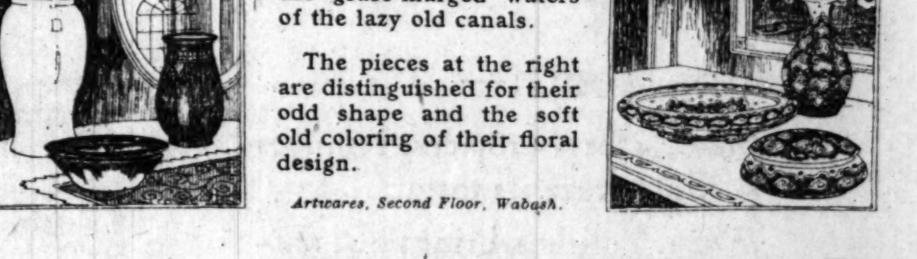

### Offers Choice of Many Quaint Pieces

THE lover of quaint pottery will find much in this collection of Dutch Artwares that will please his fancy and arouse the desire for possession. The pieces shown above are characteristic mantelpiece ornaments of Delft, arranged as one finds them in the better-class Dutch homes.

At the left below, adaptable for Summer homes, are sketched representative pieces from a line designed by one of Holland's leading architects. Severe in contour, they reflect in their brownish green glaze the grass-margined waters of the lazy old canals.

The pieces at the right are distinguished for their odd shape and the soft old coloring of their floral design.

Artwares, Second Floor, Wabash.

HERE are some more items that show how our cool Household Utilities Section helps the thrifty housewife to save:

Good Luck Fruit Jar Rubbers, fresh, new rubber that seal tight and keep out the air, 8c doz.

Parowax for sealing jelly jars, 4 generous sticks in 1-lb. pkg., 10c.

Household Utilities, Sixth Floor.

When you make your own ice cream at home you are sure of its purity. With each White Mountain Freezer there is a recipe book telling how to make the richest and smoothest ice cream. Freezers, from 1 pt. at \$3.75 to 12 qt. size at \$21.50.

Household Utilities, Ninth Floor.

Handy fruit jar Holders—1/2 pt., pt., and qt. sizes—pkg. of 6, 50c.

8-qt. "Superior" Aluminum Preserving Kettle of heavy gauge, \$1.38.

8-jar Canner, complete with rack, measuring cup, jar-funnel, apple-corner, jar-wrench, large spoon, and jar-washing mop, \$2.00.

IN addition to complete lines of Stemware—goblets, sherbets, tumblers, etc., offered in this Selling, there is a large variety of fancy items such as Vases, Covered Compotes, Candy Jars, and Sugars and Creamers. All are in attractive light cut patterns. The following are a few of the remarkable values offered:

Brought Them to S.

Q.—You objected to the S accounts? Q.—To whom did Mr. Gosselin?

Q.—You objected to the S accounts? Q.—Yes.

Q.—You objected to the S accounts? Q.—Yes.

Q.—You objected to the S accounts? Q.—Yes.

TUESDAY, JULY 19, 1921.

## TRAIL OF EXPERT FEES LEADS UP TO O.K. BY GOSELIN

**REWARDED**  
Former Great Lakes Commandant Nominated as Rear Admiral and Chief of Navy Aeronautics.

'Rubber Stamp' Methods Bared at Council Quiz.

BY OSCAR E. HEWITT.

Louis E. Gosselin, deputy controller, declined twice yesterday to give information to the council's subcommittee which is investigating the payment of \$2,450,000 to five city experts in approximately one year.

He was asked to appear before the committee in person. He did not respond. Then the committee called upon him personally and asked for vouchers and warrants showing the payment of the expert fees.

As a reason he pleaded the absence of City Controller Harding from the office.

But Gosselin's refusals completely blocked the committee in this line of inquiry and this afternoon it will switch to questioning President Michael J. Faherty of the board of local improvements. The testimony yesterday to Chief Auditor Joseph Harvey and Warrant Clerk George Schneidenbach indicated that both Gosselin and Faherty played important parts in the payment of the expert fees.

## Harvey Bares the Method.

After the appropriations for expert fees had been largely exhausted the bills for the experts were charged to appropriations for other expenditures which might be ordered by the city council, although they were never ordered. These warrants were stamped with a "rubber stamp," "charges against account approved by the city council."

"Charges to these accounts had not been approved by the city council; had they?" asked Attorney Hart for the committee.

"No, sir," replied Auditor Harvey.

"Why, then, was the rubber stamp used?"

"We anticipated that the council would authorize that action."

Q.—Who signed the warrants which had been rubber stamped? A.—Deputy Controller Gosselin.

Q.—He knew then that the stamp was upon the warrants, didn't he? A.—He must have.

## Net Honored Without Stamp.

Q.—The treasurer would not have honored the warrants without the stamp, would he? A.—No, he would not.

Q.—Did everybody in your office overlook that misrepresentation of the treasurer? A.—I would not put it that way.

Q.—[By Chairman Schwartz]—Who told you to charge these expert fees to the "S" accounts? A.—Mr. Gosselin.

Q.—Who stamped the warrants with the rubber stamp? A.—George Schneidenbach, who works under me.

Q.—Who, President of the board of local improvements present at any of these conferences when it was decided to charge the expert fees to the S accounts? A.—No, but I have seen him in the office more than once.

Q.—Whom did he talk to? A.—I saw him waiting to talk with the controller and deputy controller.

Q.—Do you know he was in on this fee matter? A.—It was up at that time and I suspected he was.

## Objected to S Account Charges.

Q.—You objected to charging the fees to the S accounts? A.—Yes, sir.

Q.—To whom did you object? A.—Mr. Gosselin.

Q.—You objected because it was improper to charge the fees to those S accounts? A.—Yes, sir.

Q.—Objected to S account charges there had been a transfer of funds permitting such charges? A.—Yes, sir.

Q.—You also objected because the finance committee had not approved of that sort of thing? A.—Yes, sir.

Q.—Yet Mr. Gosselin ordered you to charge the fees to the S accounts? A.—Yes, sir.

Q.—[By Attorney Hart]—Why did you allow the real estate experts 1 per cent of the land appraised, when the order permits them only \$50 per day? A.—I thought that we followed the order of the council.

Brought Them to Gosselin's Notice.

Q.—[By Chairman Schwartz]—Did you complain of some of these extremely large bills? A.—Yes, sir.

Q.—Who? A.—Mr. Gosselin.

Q.—What did he say? A.—He said they were the same as the others.

Q.—Did you talk with Frank J. Rosch, chief accountant of the board of local improvements, regarding the S accounts? A.—Yes, sir.

Q.—What did he say? A.—He said Faherty had said that they were all right and to put them through.

Q.—You issued warrants dated Dec. 21 for about \$600,000 in fees for the building experts, although you did not get the bills until in January of this year. Is that right? A.—Yes, sir.

Q.—Then you destroyed some of those warrants and issued new warrants dated this year. Is that right? A.—Yes, sir.

Q.—Why did you do that? A.—The experts objected to the warrants dated Dec. 21.

Q.—Who told you that? A.—Mr. Gosselin.

Q.—Why did they object? A.—I don't know.

## Question of Income Tax?

Q.—What's your opinion? A.—It was the first time it had ever happened in the twenty years I have been in the office, and, of course, there was a lot of guessing and speculating about the reason for the objections. My guess was that the Dec. 31 warrants affected their income taxes, but I may be off 100 miles.

Q.—What did you tell Mr. Gosselin

## REWARDED

## RICH PATRONS OF 3D WARD MONTE CARLO BARE PULL

Deride "Poor Boobs" Who Must Be "Mugged."

BY OSCAR E. HEWITT.

Louis E. Gosselin, deputy controller, declined twice yesterday to give information to the council's subcommittee which is investigating the payment of \$2,450,000 to five city experts in approximately one year.

He was asked to appear before the committee in person. He did not respond. Then the committee called upon him personally and asked for vouchers and warrants showing the payment of the expert fees.

As a reason he pleaded the absence of City Controller Harding from the office.

But Gosselin's refusals completely blocked the committee in this line of inquiry and this afternoon it will switch to questioning President Michael J. Faherty of the board of local improvements. The testimony yesterday to Chief Auditor Joseph Harvey and Warrant Clerk George Schneidenbach indicated that both Gosselin and Faherty played important parts in the payment of the expert fees.

Harvey Bares the Method.

After you had talked with Mr. Rosch? A.—I told him that I couldn't agree with the board of local improvements in charging these to the S accounts.

Q.—Did he tell you to charge the fees to the S accounts anyway? A.—Yes.

When the twenty-sevens reached the station yesterday, however, they found "poor brother," known as "Potato" Lazarus, waiting with his bondsmen Albert Gordon, as bondsmen. Instead of being hustled upstairs to the bureau of identification, the men were let out on board as fast as the proper entries could be made. Five men arrested in a raid on a cigar store at 4300 Indiana avenue, also were released without being "mugged," their bonds being furnished by William Simons.

Released Without "Mugging."

All were rushed to the state's attorney's office where arrest slips were prepared. The prisoners then were taken to the South Clark street station. Chief Fitzmorris has ruled that every man taken in a gambling raid must be taken to the bureau of identification and held without being booked in case he is found to have a record.

Yesterday the same thing happened. Detectives from State's Attorney Crowe's office swooped down on Lazarus' new place at 228 East Forty-seventh street and garnered twenty-seven prisoners, including Clarence (Izzy) Lazarus himself.

A Released Without "Mugging."

All were rushed to the state's attorney's office where arrest slips were prepared. The prisoners then were taken to the South Clark street station. Chief Fitzmorris has ruled that every man taken in a gambling raid must be taken to the bureau of identification and held without being booked in case he is found to have a record.

When the twenty-sevens reached the station yesterday, however, they found "poor brother," known as "Potato" Lazarus, waiting with his bondsmen Albert Gordon, as bondsmen. Instead of being hustled upstairs to the bureau of identification, the men were let out on board as fast as the proper entries could be made. Five men arrested in a raid on a cigar store at 4300 Indiana avenue, also were released without being "mugged," their bonds being furnished by William Simons.

The Power of the "Drag."

Meanwhile, thirteen prisoners arrested by the police in a gambling raid on place conducted by Charles T. Wurm at Southport and Woodward avenues were taken to the bureau of identification, where they were examined by the police. The favored ones made the less fortunate leaning out of the windows for a breath of air as the form emerged from the station.

"Hey, you poor stiffs!" shouted the lucky ones. "How do you get that way? Why don't you have a drag? We don't like their photographs." Why don't you walk out, you poor booko?"

When Lazarus' place in Grand Boulevard was raided on Nov. 22 last, the police found a elaborate gambling layout uncovered in Chicago in the last twenty-five years. Faro, roulette and other games were in full blast in luxuriously furnished rooms when the police walked in.

Vice Wide Open, Newark Says.

"Gambling and vice are running wild in the Third ward," declared Ben Newmark, chief investigator for State's Attorney Crowe. "That is the worst spot in the city and we are going to clean it out thoroughly before we get through." He will not properly permit you to have a copy or certified copy of the warrants. That is his rule.

"Will you give up the warrants?" asked Ald. Schwartz.

"No, sir," said Gosselin.

"Not on any form of demand?"

"We sent you a letter July 13 asking you to appear before the committee, and I am surprised that you have not answered it," said Schwartz.

"I did not want to answer it in the absence of the controller," said Gosselin.

"We anticipated that the council would authorize that action."

Q.—[Attorney Cohen for the committee]—Who signed the warrants which had been rubber stamped? A.—Deputy Controller Gosselin.

"He knew then that the stamp was upon the warrants, didn't he? A.—He must have.

Net Honored Without Stamp.

Q.—The treasurer would not have honored the warrants without the stamp, would he? A.—No, he would not.

Q.—Did everybody in your office overlook that misrepresentation of the treasurer? A.—I would not put it that way.

## YEARLING CATTLE \$9.75; TOP HOGS, \$10.85; GAIN 25¢

### CHICAGO LIVE STOCK

Prices for live stock at Chicago yesterday were:

	HOGS.
Bulk of sales	\$6.00 to \$10.40
Butchers, 190¢ to 240 lbs	10.20 to 10.80
Heavy and mixed packing	8.00¢ to 6.00¢
Light and heavy packing	6.00¢ to 6.00¢
Light bacon, 1,000¢ to 1,100 lbs	10.50¢ to 10.85
Light mixed, 1,400¢ to 1,600 lbs	10.40¢ to 11.00
Pork	7.00¢ to 8.00¢
Steaks, subject to dockage	7.00¢ to 8.00¢
CATTLE.	
Prime steers, 1,000¢ to 1,500 lbs	9.75¢ to 10.75
Poor to choice, 1,100¢ to 1,500 lbs	8.50¢ to 8.80
Export steers, 1,200¢ to 1,400 lbs	7.70¢ to 8.50
Lambs, poor to best	4.00¢ to 6.50
Yearlings, 700¢ to 1,100 lbs	8.25¢ to 9.75
Fat lambs	6.00¢ to 7.50
Canning cows and heifers	7.50¢ to 8.00
Poos to choice bulls	3.25¢ to 7.50
Stockers and feeders	3.25¢ to 4.75
Poor to fair steers	2.00¢ to 6.00
SWINE AND LAMBS.	
Western lambs	7.00¢ to 8.00
Native lambs	6.00¢ to 7.00
Lamb, poor to best culs.	4.00¢ to 6.50
Yearlings, all grades	6.00¢ to 8.00
Wooly lambs, all to best	4.00¢ to 6.00
Ewes, poor to best	4.00¢ to 6.00
Ducks	1.50¢ to 2.00

Yearling cattle averaging 1,033 lbs. sold yesterday at \$9.75 and 160¢ to 19¢ lbs. hogs at \$10.85, both 25¢ above last week's top, cattle being as high as at any time since April 5, and hogs the highest since late in March.

Better grades of butcher stock and beef steers sold largely at 10¢ to 15¢ advance and hogs, after starting in 15¢ to 20¢ higher, closed weak, with part of the gain lost. The day's average price of hogs reached the 11¢ mark.

Brisk bidding competition was the strengthening factor in cattle and hogs. The 9.75 yearlings went to Cudahy's at Milwaukee, and New York buyers paid up to \$10.85 for light hogs.

Sheep Steady; Lambs Lower.

Sheep were in large supply, but prices ruled steady, while lambs closed 25¢ lower, owing to excessive offerings. Top sheep sold at \$6.50, best western lambs at \$10.70 and top natives at \$9.50.

Seven western markets received 48,000 cattle, 90,000 hogs and 48,000 sheep against 35,000 cattle, 89,000 hogs and 48,000 sheep the previous Monday and 60,000 cattle, 72,000 hogs, and \$1,000 sheep a year ago.

Receipts at Chicago for today are estimated at 5,000 cattle, 35,000 hogs and 17,000 sheep, against 16,671 cattle, 26,195 hogs and 14,903 sheep the corresponding Tuesday a year ago.

Yesterday's Hog Purchases.

Hog purchases by Chicago packers and others follow:

## The Cost of Living

Scattered rains over parts of the northwest and southwest, heavy rains over Nebraska, and rain in Kansas and Missouri damped the ardor of the grain buyers of last week and they were active yesterday in unloading.

The markets showed an over-bought condition and with a lessening of the buying power were left with poor support. Prices declined and closed well toward the inside, with net losses of 2¢/4¢ on wheat, 1½¢/2¢ on corn, 1¢ on oats, and 4¢ on rice.

There was less opposition to the selling side and, while the underlying situation the world over was regarded as strong, there was too much disposition to obtain profits on grains. Large receipts with 1,250 cars of all grains, although all but 200 cars appled on recent sales, also were a depressing factor. Trading was of lighter volume than at the close last week.

### Wheat News Moderately Bullish.

Crocks news from North Dakota was moderately bullish. Snow claimed blizzard infection in Manitoba, but no serious loss and says while heat and bright have lowered quality, there will be a good average crop. Other reports from western Canada were moderately favorable. In all there was nothing sensationalistically bullish or bearish in the reports, and the trade assumed that, with cooler weather, there was less occasion for expecting a continuation of the upward course of prices for the present.

An increase of 3,968,000 bu in the visible supply and of 257,000 bu in Chicago stocks for the week, making the latter only 471,000 bu, combined with large arrivals of 817 cars here, 1,118 cars at Kansas City, and 480 cars at Omaha, had a depressing effect on values.

A week ago in Minneapolis was taken as a good reason for selling out.

The bearish factors were used in advancing selling of July and buying of September at 4¢/6¢ discount for the September and selling of July and buying of September, and buying of September and selling of December attracted attention.

July at the top was 1½¢/2¢, September 11½¢, and December 1½¢/2¢, with a break of more than 4¢ on stop loss selling.

### Rains Help Corn Crop.

Corn has received a good deal of rain since Saturday. Late reports told of good rains in central Illinois and over a good part of Iowa, all of which will help the crop. Scattered reports of firing and of tassels being burned were received, but the rains proved too much for the horses.

The harvest carried prices down 1½¢/2¢, with the finish 6½¢ for July, 6½¢/6¾¢ for September, and 6¾¢/6¾¢ for December.

Oats gave evidence of being over-bought at the start and despite continued unfavorable crop reports prices dropped 1½¢/2¢, with the finish at 39¢/40¢ for July, 41¢/41¢ for September, and 42¢/43¢ for December.

Selling of rice by northwest and local interests, combined with the break in other grains, carried rice prices down 5¢/6¢.

Lard was offered freely by Armour and others and had poor support until the price had declined 6¢. Then buying improved and prices rallied, making the close 17½¢ lower. Ribs lost 22½¢/32¢. Cash trade was fair and exports were 16,500,000 lbs last week, or 3,000,000 lbs over last year's. Prices follow:

### Mess Pork.

# CONSERVATISM

Maintenance of individuality is an inherent principle.  
Organized, developed and conducted on the principle  
of conservative banking along progressive lines.

## THE NATIONAL BANK OF THE REPUBLIC OF CHICAGO

has preserved the integrity of its individuality intact during a period in which the tendency to consolidation has been general, and on this basis has gained a little each day in strength, in scope, and in the confidence of the public. Governed by the same principle, and entertaining a reciprocal confidence in a public which recognizes the right relationship between service and recompense, this Bank expects to continue to grow both in its capacity and its opportunity to serve, and to that end invites the patronage to which it believes it has proved itself entitled.

# 5 MILLION BONDS OF PHILADELPHIA SELL AT 104.139

BY O. A. MATHER.

Further evidence of the investment demand for tax exempt securities was given yesterday in the sale of a new issue of \$5,000,000 City of Philadelphia fifty year 5½ per cent bonds. The city received seventy-one bids, and the bonds were sold to the highest bidder at 104.139. This is the highest price received by the city for its bonds since the pre-war period, giving a premium of \$26.350.

The successful bidder was a syndicate, composed of the National City company, the Harris Trust and Savings bank, the Bankers Trust company, Montgomery & Co., Graham, Parsons & Co., Kinsell, Klinekut & Co., and Estabrook & Co. Following the award a public offering of the bonds was announced, the price being 103½ yielding about 5.20 per cent. The bonds are dated July 15 and mature in 1971. There is no option of payment prior to maturity.

## Oil Production Stamps.

Recent sharp reductions in crude oil prices and the smaller demand for refined products are having a considerable effect in curtailing oil production in the United States and Mexico. All the American fields, except California, show a definite downward trend. Daily gross production for the United States in the week ended July 9, as computed by the American Petroleum Institute, was 1,311,160 barrels, a decrease of 3,190 from the preceding week.

Daily average production in the North Texas fields last week was 181,530 barrels, a decrease of 1,770 from the preceding week. Production in the Gulf coast fields was 55,470 barrels a day, an increase of 1,170. Production in California for June was 327,625 barrels a day, an increase of 524 over May. Shipments averaged 284,904 barrels a day and stocks were increased by 1,712,649 barrels.

## New Rail Problem Rises.

Another problem in efficient railroad operation was raised yesterday in the request of the Chesapeake and Ohio to units for operation with the Chesapeake and Ohio Northern, a subsidiary. The petition to the Interstate commerce commission for unitization was made for consolidation under the provisions of the transportation act, as the properties now are under one management and in substance commonly owned. Under the Clayton anti-trust act, however, common dealing in supplies and materials for the two roads cannot exceed \$50,000 a year, which the petition says affects the "heretofore efficient and economical operation of these properties as a single system."

The commission recently has refused to grant authority for such unified operations where roads are going concerns. The present petition suggests three plans: first, to operate the Chesapeake and Ohio Northern as an extension of and by the Chesapeake and Ohio, second, acquisition of the smaller road by conveyance; third, authority to assume direct liabilities for the outstanding indebtedness of the subsidiary.

## Liberty Issues Reach High Level for Period

New York, July 15.—(Special)—The bond market today was not so active and price changes were not wide. Liberties and Victory notes continued to move upward and are now selling around their high levels for the current period. Foreign government obligations shaded prices during the forenoon, but in the late session ruled generally steady. In the industrial group support was given Cuban Cane Sugar convertible 7s, and the price advanced more than a point to about 82. Westinghouse 7s registered an early gain to 100%, but gave way somewhat in the afternoon, although offerings were well taken. Lackawanna Steel is quoted more than a point to 72, and Northwest Bell 7s, while moderately active, did not change their level much. First and second class railroad bonds moved over a steady price trend. Treasury issues were irregular.

## Warburg, International Banker, to Visit Europe

New York, July 15.—(Special)—Paul M. Warburg, chairman of the International Acceptance bank, plans to sail for Europe on the Aquitania next Tuesday. He will be abroad for several weeks.

## CORPORATION EARNINGS

COCA-COLA.  
Net earnings for May \$976,680 and for June are estimated at approximately \$1,000,000, making total net for the first six months of 1921 approximately \$1,672,875, a sum \$3,086,296 for first six months of 1920.

## SAVORY OIL.

The balance sheet as of Dec. 31 last shows cash amounting to \$45,476, account's receivable, \$20,282; inventories, \$4,163; draft and accounts receivable, \$25,300; capital, \$1,583; and total assets and liabilities, \$2,567.

REPORT FOR 1920 shows operating expenses, \$3,785,145 and a deficit, \$45,574, after operating expenses and all deductions.

## It Is Cool In the Pacific Northwest

Oregon, Washington, and British Columbia comprise the greatest summer resort region in the world, and—the most delightful. There are snow-capped mountain ranges and peaks thirty times the area of Switzerland; two thousand miles of inland seas; a rugged coast line exceeding in grandeur the Fjords of Norway; fifteen thousand miles of scenic highways; a thousand enchanting fresh water lakes; mountain streams, leaping cascades, and mighty rivers; waving wheat fields and orchards laden with golden fruit; bathing on sandy beaches; trout and salmon fishing in the most alluring surroundings; 38 golf courses and every outdoor sport and recreation.

This great international playground is your logical vacation ground. Hotel rates in the cities and at the resorts are the most reasonable on the Continent.

### Cool, Sunny Days— and a Restful Sleep Every night

Plan your trip now. Don't wait. Remember that the money you spend on your vacation pays greater dividends than that spent in any other way.

Write for free illustrated booklet to any commercial organization in Oregon, Washington or British Columbia, or to Pacific Northwest Tourist Association, Herbert Cuthbert, Executive Secretary, L. C. Smith Building, Seattle, Wash.

**The "PARIS"**

THE ATLANTIC'S NEWEST QUEEN

Leaves New York on her second voyage on

JULY 27th

NEW YORK-HAVRE-PARIS

45,000 horsepower, 33,700 tons. Equipped with every latest safety device. Already has a reputation for steadiness. No detail making for increased travel-comfort or convenience is lacking.

We suggest that reservations for this voyage be arranged as early as possible.

He has pointed out that the most important thing now is for all invited to approach the conference with mutual good will, the unfortunate for any attitude to develop pre-actual conference, and the intention on the part of drawing any hard and fast

gird to the subjects to

Secretary Hughes who is to sit in the conference

as provision is made for the Japanese ambassador to the

Mr. Shidehara, the government

convined that Japan would participate in the conference of the principal powers on subjects

the far east.
